FOREWORD

For a number of years I have commented on the seriousness of the ever-present and growing crime problem in our country. The results of the past two years, however, give us reason for hope.

Across the country, decreases in those crimes that the general population experiences most directly — the Crime Index offenses — are being recorded. There was an all-time high of these crimes reported in 1980. Since then, the tide has been turned. The most recent figures for 1983 indicate a substantial decrease from our experience in 1982.

During those years of continual crime increases, we were hard pressed to explain the reasons for the increases. Now, we are equally challenged to explain the decreases. The heightened awareness of the public to the possibility of being a crime victim has set into motion a host of crime prevention measures. Effective action in recent years by law enforcement agencies, courts, and correction facilities to identify and isolate recidivists has played a role in crime reduction. The age migration, especially the maturation of those who have historically been prone to commit crimes, is another causal factor. Legislative initiatives promulgated at the federal, state, and local government levels to combat crime have been instrumental in securing a safer society. Many social forces are at work influencing criminal behavior in this country; and, no one factor should be isolated as the solution to the crime problem.

As we proceed through this decade, a clearer understanding of criminal activity shall possibly evolve. At these early stages of crime reduction, a host of potential reasons have surfaced. Separating the illusory from the real is the task before us. Still, it is not unreasonable to conclude that a national resolve to cope with crime has emerged and that this resolve, properly fostered, offers the greatest hope for success in the years ahead.

William H. Webster
Director

CRIME FACTORS

The presence of crime in our Nation is a matter of serious concern not only to the law enforcement profession, but to society at large. Historically, the causes and origins of crime have been the subjects of investigation by many disciplines. While no definitive conclusions have yet been reached, a number of factors affecting the volume and type of crime that occurs from place to place have been delineated. Some of these are as follows:

Population density and size of locality and its surrounding area.

Variations in composition of the population, particularly age structure.

Stability of population with respect to residents' mobility and transient factors.

Economic conditions, including job availability.

Cultural conditions, such as educational, recreational, and religious characteristics.

Climate.

Effective strength of law enforcement agencies.

Administrative and investigative emphases of law enforcement.

Policies of other components of the criminal justice system (i.e., prosecutorial, judicial, correctional, and probational).

Attitudes of citizenry toward crime.

Crime reporting practices of citizenry.

The Uniform Crime Reports give a nationwide view of crime based on statistics contributed by state and local law enforcement agencies. Population size is the only correlate of crime utilized in this publication. While the other factors listed above are of equal concern, no attempt is made to relate them to the data presented. The reader is, therefore, cautioned against comparing statistical data of individual reporting units from cities, counties, states, or colleges and universities solely on the basis of their population coverage or student enrollment.

SECTION I
SUMMARY OF THE UNIFORM CRIME REPORTING PROGRAM

The Uniform Crime Reporting (UCR) Program is a nationwide cooperative venture of nearly 16,000 city, county, and state law enforcement agencies. Voluntarily reporting data on crimes brought to their attention, these agencies make it possible to assess lawlessness in the Nation and to gauge fluctuations in its amount and type. The Program's primary objective — to generate a reliable set of criminal statistics for use in law enforcement administration, operation, and management– has remained the same throughout its more than 50–year history. Uses of the data produced have, however, expanded substantially. The American public, demonstrating its concern regarding the crime problem, has shown increasing interest in crime statistics. Further, UCR data have become a research tool for the use of criminologists, sociologists, legislators, municipal planners, the press, and other students of criminal justice.

Historical Background

In the 1920s, the International Association of Chiefs of Police (IACP) recognized a need for national crime statistics and formed the Committee on Uniform Crime Records to develop a viable system of uniform police statistics. After studying state criminal codes and making an evaluation of the recordkeeping practices in use, the Committee in 1929 finalized a plan for crime reporting which became the foundation of the UCR Program.

Since offenses known to law enforcement were the most readily available crime information, the Committee elected to survey local agencies to obtain data on crimes brought to their attention. Realizing that not all crimes are reported, the Committee evaluated various offenses on the basis of their seriousness, frequency of occurrence, pervasiveness in all geographic parts of the country, and likelihood of being reported to law enforcement. Using those criteria, seven offenses were chosen to serve as an Index for gauging fluctuations in the overall volume and rate of crime. These crimes, known jointly as the Crime Index, included the violent crimes of murder and nonnegligent manslaughter, forcible rape, robbery, and aggravated assault; and the property crimes of burglary, larceny-theft, and motor vehicle theft. By congressional mandate, arson was added as the eighth Index offense in 1979.

During the early planning of the Program, it was recognized that the differences among criminal codes precluded a mere aggregation of state statistics to arrive at a national total. Further, because of the variances in punishment for the same offenses in different state codes, no distinction between felony and misdemeanor crimes was possible. To overcome these problems and provide nationwide uniformity in crime reporting, standardized offense definitions were formulated. Without regard for local statutes, law enforcement agencies would submit data in accordance with the UCR standard definitions of offenses as set forth in Appendix II of this publication.

In January, 1930, 400 cities representing 20 million inhabitants in 43 states began participating in the UCR Program. In that same year, Congress enacted legislation under Title 28, Section 534, of the United States Code authorizing the Attorney General to gather crime information. The Attorney General, in turn, designated the FBI to serve as the national clearinghouse for data collected by the Program. Since that time, data based on uniform classifications and procedures for reporting have been obtained from the Nation's law enforcement agencies.

The IACP's Committee on Uniform Crime Records, acting in an advisory capacity concerning the UCR Program's operation, remains a vital link between local police departments and the FBI. The National Sheriffs' Association (NSA) in June, 1966, established a Committee on Uniform Crime Reporting to serve in an advisory role to the NSA membership and the national UCR Program. This Committee actively encourages sheriffs throughout the country to fully participate in the Program.

Committees on Uniform Crime Reporting within state law enforcement associations are also active in promoting interest in the UCR Program. These committees foster widespread and more intelligent use of uniform crime statistics and lend assistance to contributors when the need arises.

Methods of Data Collection

The FBI receives the information its contributors compile either directly from the local law enforcement agency or through a state-level UCR Program. On an individual basis, agencies submitting directly to the FBI are provided continuing guidance and support from the national Program.

State-level UCR Programs are very effective intermediaries between the FBI and its local contributors. Many of the 41 state Programs have mandatory reporting requirements and collect data beyond the national UCR scope to address crime problems germane to their particular locales. These agencies can also provide more direct and frequent service to participating law enforcement agencies, make information more readily

available for use at the state level, and contribute to more streamlined operations at the national level.

With the development of a state UCR Program, the FBI ceases direct collection of data from individual law enforcement agencies within the state. Instead, information from the local agencies is forwarded to the national Program through the state data collection agency.

The conditions under which these systems are developed ensure consistency and comparability in the data submitted to the national Program, as well as provide for regular and timely reporting of national crime data. These conditions are: (1) The state Program must conform to national Uniform Crime Reports' standards, definitions, and information requirements. The states are not, of course, prohibited from collecting other statistical data beyond the national requirements. (2) The state criminal justice agency must have a proven, effective, statewide Program and have instituted acceptable quality control procedures. (3) Coverage within the state by a state agency must be, at least, equal to that attained by the national Uniform Crime Reports. (4) The state agency must have adequate field staff assigned to conduct audits and to assist contributing agencies in record practices and crime reporting procedures. (5) The state agency must furnish to the FBI all of the detailed data regularly collected by the FBI in the form of duplicate returns, computer printouts, and/or magnetic tapes. (6) The state agency must have the proven capability (tested over a period of time) to supply all the statistical data required in time to meet national Uniform Crime Reports' publication deadlines.

To fulfill its responsibilities in connection with the UCR Program, the FBI continues to edit and review individual agency reports for both completeness and quality; has direct contact with individual contributors within the state when necessary in connection with crime reporting matters, coordinating such contact with the state agency; and upon request, conducts training programs within the state on law enforcement records and crime reporting procedures. Should circumstances develop whereby the state agency does not comply with the aforementioned requirements, the national Program may reinstitute a direct collection of Uniform Crime Reports from law enforcement agencies within the state.

Reporting Procedures

Law enforcement agencies across the country report monthly to the UCR Program. From records of all reports of crime received from victims, officers who discover infractions, or other sources, the agencies tabulate the number of Crime Index or Part I offenses brought to their attention. Specifically, the crimes reported to the FBI are murder and nonnegligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, and arson.

Whenever complaints of crime are determined through investigation to be unfounded or false, they are eliminated from an agency's count. The number of "actual offenses known" is reported to the FBI regardless of whether anyone is arrested for the crime, stolen property is recovered, or prosecution is undertaken.

Another integral part of the monthly submission is the total number of actual Crime Index offenses cleared. Crimes are "cleared" in one of two ways: (1) at least one person is arrested, charged, and turned over to the court for prosecution; or (2) by exceptional means when some element beyond police control precludes the arrest of an offender. Law enforcement agencies also report the number of Index crime clearances which involve only offenders under the age of 18; the value of property stolen and recovered in connection with the offenses; and detailed information pertaining to criminal homicide and arson.

In addition to its primary collection on Crime Index (Part I) offenses, the UCR Program solicits monthly data on persons arrested for all crimes except traffic violations. The age, sex, race, and ethnic origin of arrestees are reported for both Part I and Part II offenses by crime category. Part II offenses include all crimes not classified as Part I.

Various data on law enforcement officers killed or assaulted are collected on a monthly basis. Other law enforcement employee data, specifically the number of full-time sworn and civilian personnel, are reported as of October 31 of each year.

Editing Procedures

Each report submitted to the UCR Program is thoroughly examined for arithmetical accuracy and for deviations which may indicate errors. To identify any unusual fluctuations in an agency's crime counts, monthly reports are compared with previous submissions by the agency and with those for similar agencies. Large variations in crime levels may indicate modified records procedures, incomplete reporting, or changes in the jurisdiction's geopolitical structure.

Data reliability is a high priority of the Program and noted deviations or arithmetical adjustments are brought to the attention of the state UCR Program or the submitting agency through correspondence. A standard procedure of the FBI is to study the monthly reports and to evaluate periodic trends prepared for individual reporting units. Any significant increase or decrease is made the subject of a special inquiry. When it is found that changes in crime reporting procedures or annexations are influencing the level of crime, the figures for specific

crime categories, or if necessary, totals are excluded from trend tabulations.

To assist contributors in complying with UCR standards, the national Program provides training seminars and instructional materials in crime reporting procedures. Throughout the country, liaison with state Programs and law enforcement personnel is maintained, and training sessions are held to explain the purpose of the Program, the rules of uniform classification and scoring, and the methods of assembling the information for reporting. When an individual agency has specific problems in compiling its crime statistics and remedial efforts are unsuccessful, FBI Headquarters' personnel may visit the contributor to aid in resolving the difficulties.

The *Uniform Crime Reporting Handbook*, which details procedures for classifying and scoring offenses, is supplied to all contributors as the basic resource document for preparing reports. Also, since a good records system is essential for accurate crime reporting, the FBI furnishes the *Manual of Law Enforcement Records*, a guide in the establishment of a sound law enforcement records system.

To enhance communication among Program participants, the UCR "Newsletter" and State UCR Program "Bulletin" are utilized to address Program policy, as well as present information and instructional material. These communications are produced as needed.

The final responsibility for data submissions rests with the individual contributing law enforcement agency. Although the Program makes every effort through its editing procedures, training practices, and correspondence to assure the validity of the data it receives, the statistics' accuracy depends primarily on the adherence of each contributor to the established standards of reporting. Deviations from these established standards which cannot be resolved by the national UCR Program may be brought to the attention of the Committee on Uniform Crime Records of the IACP or the Committee on Uniform Crime Reporting of the NSA.

Reporting Area

The presentation of statistics by reporting area facilitates analyzing local crime counts in conjunction with those for areas of similar geographic makeup. Geographically, the United States is divisible by regions, divisions, and states. Further breakdowns rely on population figures and proximity to metropolitan areas.

A Metropolitan Statistical Area (MSA) is an integrated economic and social unit with a recognized large population nucleus. Each has a central city of at least 50,000 population or an urbanized area of at least 50,000 with a total population of at least 100,000. Contiguous counties which meet specified criteria of metropolitan character and integration are included. Due to changes in the geographic compositions of MSAs, no year-to-year comparisons of data for those areas should be attempted.

"Other cities," most of which are incorporated, are those outside MSAs. For crime reporting purposes, rural counties are those outside the MSAs. As a general rule, sheriffs, county police, and state police report crimes committed within the limits of the counties but outside cities, while local police report crimes committed within the city limits.

Certain tables within this publication present statistics relative to "suburban" areas. A suburban area consists of cities with less than 50,000 inhabitants together with counties which are within an MSA. In this context, the core city is, of course, excluded. The concept of suburban area is especially important in a study of this nature because of the particular crime conditions which exist in the communities surrounding the Nation's largest cities.

During 1983, law enforcement agencies active in the UCR Program represented approximately 226 million United States inhabitants, or 97 percent of the total population as established by the Bureau of the Census. The coverage amounted to 98 percent of the United States population living in MSAs, 94 percent of the population in "other cities," and 90 percent of the rural population.

Although most law enforcement agencies submit crime reports to the UCR Program, each tabular presentation in this publication shows the extent of population coverage represented by the data included. More detailed information concerning the geographical entities used in this publication can be found in Appendix III.

Population Data

Bureau of the Census population estimates as of July 1, 1983, were used to compute crime rates for the Nation, states, geographic regions, and divisions. Using these estimates along with 1980 preliminary census counts, the populations of individual counties and cities were extrapolated. The estimated United States population increase in 1983 was approximately 1 percent over the 1982 estimate.

Offense Estimation

Tables 1 through 4 of this publication contain statistics for the entire United States. Because not all law enforcement agencies provide data for complete reporting periods, estimated crime counts for such agencies are used in the above-mentioned presentations. Offense estimation occurs within each of three areas: Metropolitan Statistical Areas, "other cities," and rural counties. Using the known crime experiences of similar areas within a state, the estimates are computed by assigning the same proportional crime volumes to nonreporting agencies.

Estimates shown in Tables 2 and 3 have been adjusted due to a 1983 change in reporting practices for Chicago,

Illinois. Prior procedures were determined not to be in accordance with established national UCR standards, and it was necessary that earlier statistics for Chicago be adjusted through estimation procedures. Crime Index figures for that city were deducted from each year's United States total and revised figures were established as if no reports were received. Those crime volumes were then reincorporated to establish new national estimates. Pre-1983 annual totals in this year's publication may not, therefore, be consistent with those in previous editions.

Crime Trends

Showing fluctuations from year to year, trend statistics offer the data user an added perspective from which to study crime. Percent change tabulations in this publication are computed only for reporting units which have provided comparable data for the periods under consideration. Exclusions from trend computations are made when figures from a reporting agency are not received for comparable time frames or when it is ascertained that unusual fluctuations are due to such variables as improved records procedures, annexations, etc.

Care should be exercised in any direct comparisons between data in this publication and those in prior issues of *Crime in the United States*. Valid percent changes for 2, 5, and 10 years are presented in this book's tabular portions.

Recent Developments

Early in 1984, a conference on the future of Uniform Crime Reporting was held in Elkridge, Maryland. The conference was part of the study of the UCR Program being funded by the Bureau of Justice Statistics (BJS) and conducted by an independent research group, Abt Associates Inc. Conference attendees were given the opportunity to review work conducted during the first phase of the study and to discuss potential changes to the UCR Program that should be considered and evaluated in its second phase. Representatives of law enforcement agencies, law enforcement membership organizations, the research community, state UCR programs, statistical analysis centers, other criminal justice agencies, the National Crime Survey Redesign Consortium, the Bureau of the Census, and the Canadian Centre for Justice Statistics participated in the conference, as did staff members from the BJS, the national UCR Program, and Abt Associates.

The seventh National UCR Conference was held July 9-12, 1984, at the FBI Academy, Quantico, Virginia. The major topic of discussion was the progress of the UCR study. At the conference, the staff of Abt Associates reported findings from the evaluation's first phase, and conference attendees offered their views on alternatives for the future direction of UCR to be developed in phase two, now underway. To ensure input from interested groups, the conference attendees included representatives from 20 large police departments; staff members from the state UCR Programs; members of the Committee on Uniform Crime Records of the IACP, the Uniform Crime Reporting Committee of the NSA, and the Steering Committee for the UCR evaluation; and staff from the BJS, Bureau of Social Science Research, and Police Executive Research Forum.

In recent years, budgetary constraints have caused the discontinuance of several operational state-level UCR Programs. Illustrative of the continuing support of the state Program concept, however, is the addition of two systems beginning with the 1984 reporting year. The State of Wisconsin reinstated its Program under the auspices of the Wisconsin Council on Criminal Justice. Vermont commenced its first statewide collection effort with the Vermont Department of Public Safety as the administering agency. At the present time, one other state has a Program under development.

Updated versions of the *Uniform Crime Reporting Handbook* and the *Manual of Law Enforcement Records* are currently being printed. Although the basic concepts in the publications are unchanged from the previous editions, some presentations in each book have been revised to clarify discussions or expand explanations. The updated issues should be available, upon request of law enforcement agencies, in the late fall of this year.

- one LARCENY-THEFT every 5 seconds
- one MOTOR VEHICLE THEFT every 31 seconds

The crime clock should be viewed with care. Being the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Index Offenses. This mode of display should not be taken to imply a regularity in the commission of the Part I Offenses; rather, it represents the annual ratio of crime to fixed time intervals.

SECTION II
CRIME INDEX OFFENSES REPORTED

MURDER AND NONNEGLIGENT MANSLAUGHTER

DEFINITION

Murder and nonnegligent manslaughter, as defined in the Uniform Crime Reporting Program, is the willful (nonnegligent) killing of one human being by another.

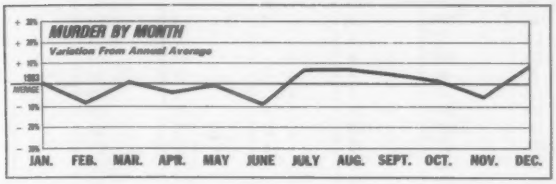
The classification of this offense, as for all other Crime Index offenses, is based solely on police investigation as opposed to the determination of a court, medical examiner, coroner, jury, or other judicial body. Not included in the count for this offense classification are deaths caused by negligence, suicide, or accident; justifiable homicides; and attempts to murder or assaults to murder, which are scored as aggravated assaults.

TREND

Year	*Number of offenses*	*Rate per 100,000 inhabitants*
1982	*21,012*	*9.1*
1983	*19,308*	*8.3*
Percent change	– 8.1	– 8.8

Volume

An estimated 19,308 persons were murdered in the United States during 1983. More murder offenses occurred in December than in any other month of the year.



Geographically, the most populous region, the Southern States, accounted for 43 percent of the murders. The North Central and the Western States each reported 20 percent; and the Northeastern States, 17 percent.

Murder by Month, 1979-1983

[Percent of annual total]

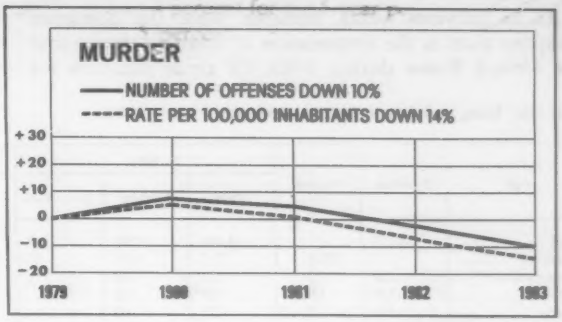
Months	1979	1980	1981	1982	1983
January	8.2	7.8	8.8	8.3	8.4
February	7.5	7.3	7.8	7.5	7.6
March	8.1	7.2	8.4	8.1	8.4
April	7.5	7.4	7.9	7.9	8.0
May	8.1	8.0	8.4	8.8	8.3
June	7.7	8.5	8.4	8.4	7.6
July	8.8	9.5	8.8	8.8	8.9
August	8.6	10.3	8.7	8.8	8.9
September	8.5	8.7	8.3	8.6	8.7
October	8.9	8.3	8.0	8.2	8.4
November	8.8	8.1	7.9	7.5	7.8
December	9.2	8.8	8.6	9.0	9.0

Trend

Nationwide, 8 percent fewer murders were reported in 1983 than in 1982. Decreases in murder were evident in all population groups, ranging from 13 percent in the suburban counties to 2 percent in cities with populations over 1 million and those with populations of 50,000 to 99,999. In the rural counties, murders dropped 10 percent.

All regions registered declines in the number of murders during 1983. The decreases were 13 percent in the Southern States; 8 percent in the Northeastern States; 4 percent in the Western States; and 2 percent in the North Central States.

The accompanying chart reveals a decrease of 10 percent nationally in the murder counts from 1979 to 1983.



Rate

The 1983 national murder rate was 8 per 100,000 inhabitants, down 9 percent from the previous year. When the number of murder victims was related to the populations on a regional basis, the Southern States averaged 10 murders per 100,000 people, down 14 percent from 1982. In the Western States, for which a murder rate of 8 per 100,000 inhabitants was recorded, the rate dropped 6 percent. With a murder rate of 7 per 100,000, the Northeastern States' rate was down 8 percent, while the North Central States' murder rate of 6 per 100,000 showed a 2-percent decline.

Collectively, the MSAs reported a murder rate of 9 victims per 100,000 inhabitants; the rural counties recorded a rate of 6 per 100,000; and cities outside metropolitan areas registered a murder rate of 5 per 100,000.

Nature

Contributing agencies provided supplemental information for 18,673 of the estimated 19,308 murders in 1983. Submitted monthly, the data consist of the age, sex, race, and ethnic origin of both victims and offenders; the types of weapons used; the relationships of victims to the offenders; and the circumstances surrounding the murders.

According to these statistics, approximately 76 percent of the murder victims in 1983 were males. Considering victims for whom race was known, an average of 55 of every 100 were white, 43 were black, and 2 were persons of other races. Twenty percent of the victims for whom ethnicity was reported were Hispanic.

Data based on incidents involving one victim and one offender show that murders are most likely to be intraracial. For example, 94 percent of the black murder victims were slain by black offenders, and 88 percent of the white murder victims were killed by white offenders. Likewise, males are most often slain by males (81 percent in single victim/single offender situations). These same data show, however, that 9 of every 10 female victims are murdered by males.

As in previous years, firearms were the dominant weapons used in the commission of murders throughout the United States during 1983. Of those murders for which weapons were reported, 44 percent were by handguns, 7 percent by shotguns, 4 percent by rifles, and 3 percent involved other or unknown types of firearms.

Age, Sex, Race, and Ethnic Origin of Murder Victims, 1983

Cutting or stabbing instruments were employed in 22 percent, and other dangerous weapons such as blunt instruments, poison, explosives, etc., were used in 13 percent. Personal weapons (hands, fists, feet, etc.) accounted for the remaining 7 percent.

Within this section are presentations illustrating the number of murder offenses for which the types of weapons used were reported to the UCR Program. Also shown is a tabular analysis of murder weapons for the years 1979 through 1983.

[1]Pushed is included in personal weapons.

It has long been recognized that murder is primarily a societal problem over which law enforcement has little or no control. Supporting this philosophy is the fact that 57 percent of the murders committed in 1983 were perpetrated by relatives or persons acquainted with the victims. Nineteen percent of all killings involved family relationships, one-half of which involved spouse killing spouse.

Arguments resulted in 44 percent of all murders, while 18 percent occurred as a result of felonious activities such as robbery, arson, etc. Another 3 percent were suspected to be the result of some felonious activity. The table on the following page shows murder circumstances/motives for the past 5 years.

Clearances

Higher than for any other Crime Index offense, the nationwide murder clearance rate was 76 percent in 1983. The murder clearance rate reported by city law enforcement agencies was 75 percent, while agencies in suburban and rural counties cleared 74 and 83 percent, respectively. Persons under 18 years of age were involved in murder less than in any other offense in 1983. They accounted for 5 percent of the willful killings cleared by law enforcement nationally as well as in cities and in suburban and rural counties.

Persons Arrested

From 1982 to 1983, murder arrests decreased 6 percent in volume. Arrests of persons under age 18 dropped 17 percent, while those of persons aged 18 and over fell 4 percent.

Murder Circumstances/Motives, 1979-1983

[1]Because of rounding, percentages may not add to totals.
[2]Murders committed during arguments while under influence of narcotics are not counted in felony murders.

Of all persons arrested for murder in 1983, 41 percent were under 25 years of age, with 7 percent of the total being 17 or younger. The 18- to 24-year age group showed the greatest involvement in this offense, accounting for 34 percent of the total 1983 murder arrests.

Blacks comprised 50 percent of the total arrestees for murder in 1983. Whites made up 49 percent, and the remainder were of other races. Twenty-two percent of the juvenile arrestees, 15 percent of the adult arrestees, and 16 percent of the total arrestees were of Hispanic ethnicity.

FORCIBLE RAPE

DEFINITION

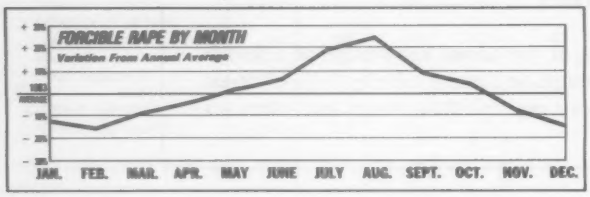
Forcible rape, as defined in the Program, is the carnal knowledge of a female forcibly and against her will. Assaults or attempts to commit rape by force or threat of force are also included; however, statutory rape (without force) and other sex offenses are excluded.

TREND

Year	*Number of offenses*	*Rate per 100,000 inhabitants*
1982	*78,898*	*34.1*
1983	*78,918*	*33.7*
Percent change	—	– 1.2

Volume

Numbering an estimated 78,918, forcible rapes reported to law enforcement agencies accounted for 6 percent of the volume of violent crimes and 1 percent of the total Crime Index. Geographically, the South, the region with the largest population, recorded 35 percent of the 1983 forcible rape volume. The Western States accounted for 26 percent; the North Central States, 23 percent; and the Northeastern States, 16 percent.



As in previous years, more forcible rapes occurred in the summer months than during any other time of the year. August recorded the highest volume, while the lowest was registered in February.

Forcible Rape by Month, 1979-1983

[Percent of annual total]

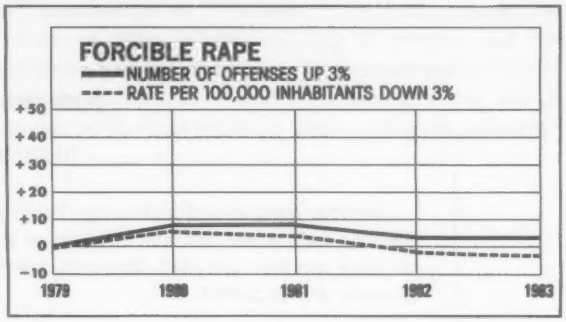
Months	1979	1980	1981	1982	1983
January	6.5	7.4	7.2	7.1	7.3
February	6.1	6.6	7.2	7.2	6.9
March	7.7	7.4	7.9	8.0	7.6
April	7.5	7.7	8.0	8.0	7.9
May	8.3	8.7	8.6	9.0	8.5
June	9.0	9.3	9.5	9.3	8.8
July	9.6	10.5	10.1	10.2	9.9
August	9.8	10.5	9.7	10.0	10.4
September	9.8	9.4	8.7	8.6	9.1
October	9.4	8.1	8.3	8.3	8.7
November	8.6	7.5	7.6	7.2	7.7
December	7.8	6.8	7.2	7.2	7.1

Trend

The volume of forcible rapes reported to law enforcement agencies nationwide showed no change from the 1982 experience. Comparisons for 5- and 10-year periods show 1983 national forcible rape figures up 3 percent above the 1979 level and 42 percent above the 1974 volume.

Collectively, city law enforcement agencies and those in rural counties recorded increases of 1 and 3 percent, respectively, in their forcible rape volumes in 1983, while suburban area agencies registered a drop of 3 percent. By population grouping, cities with less than 10,000 inhabitants reported the greatest increase, 5 percent.

Trends for the geographic regions ranged from an 8-percent increase in the North Central States to a 5-percent decline in the Southern States. The number of forcible rapes reported in 1983 in the Northeast rose 2 percent, while in the West, the volume dropped 1 percent from 1982.



Rate

By Uniform Crime Reporting definition, the victims of forcible rape are always female, and in 1983, an estimated 66 of every 100,000 females in the country were reported rape victims. The rate was 2 percent higher than in 1982, but 1 percent lower than in 1979.

The 1983 female forcible rape rate was 76 victims per 100,000 females in the MSAs, 41 per 100,000 females in cities outside metropolitan areas, and 29 per 100,000 females in rural counties.

On a regional basis, 86 per 100,000 females in the West were forcible rape victims. In the Southern States, the female forcible rape rate was 67; in the North Central States, 60; and in the Northeastern States, 51.

Nature

During 1983, 77 percent of all offenses reported in this category were rapes by force. Attempts or assaults to commit forcible rape comprised the remainder. Forcible rape, a violent crime against the person, is still recognized as one of the most underreported of all Index crimes. Victims' fear of their assailants and their embarrassment over the incidents are just two factors which can affect their decisions to contact law enforcement.

Clearances

Fifty-two percent of the known forcible rapes in the Nation were cleared by arrest or exceptional means in 1983. Law enforcement agencies in the rural counties recorded a 63-percent clearance rate; those in the suburban areas, a 54-percent clearance rate; and city agencies, a 51-percent rate. Of the total clearances for forcible rape in the Nation as a whole, 9 percent involved only persons under the age of 18. While the Nation's cities also recorded 9 percent involving that age group, the suburban areas reported 10 percent and the rural counties, 8 percent.

Persons Arrested

The number of forcible rape arrests in 1983 increased 1 percent over the 1982 experience. Arrests for this offense showed an increase of 2 percent in the Nation's cities and 1 percent in the suburban counties, while the rural counties decreased 1 percent.

From 1979 to 1983, arrests for this offense increased 3 percent in number. Arrests of persons under 18 years of age decreased 4 percent for the 5-year period, while adult arrests rose 5 percent.

Fifty percent of the forcible rape arrests in 1983 were of persons under the age of 25, with 25 percent of the arrestees in the 18- to 22-year age group. Fifty percent of those arrested were white, 49 percent were black, and all other races comprised the remainder. Ten percent of the forcible rape arrestees in 1983 were Hispanic.

ROBBERY

DEFINITION

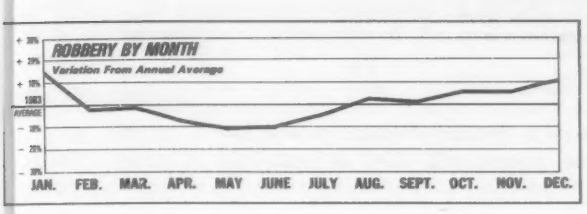
Robbery is the taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

TREND

Year	*Number of offenses*	*Rate per 100,000 inhabitants*
1982	*546,204*	*235.9*
1983	*500,221*	*213.8*
Percent change	– 8.4	– 9.4

Volume

An estimated 500,221 robberies, comprising 4 percent of all Index crimes and 40 percent of the violent crimes, were reported in 1983. The highest robbery counts were recorded in January, while the lowest occurred in May and June.



Regionally, the Northeastern States experienced the highest proportion of robberies, 31 percent of the total. The Southern States reported 27 percent; the Western States, 22 percent; and the North Central States, 20 percent.

Robbery by Month, 1979-1983

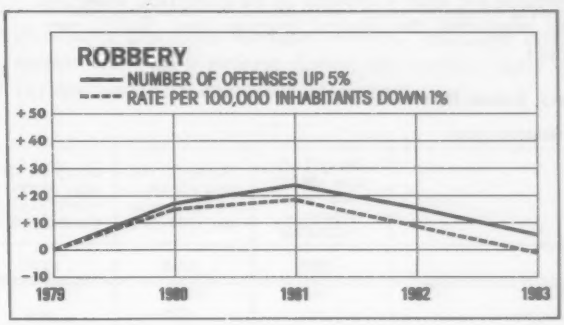
[Percent of annual total]

Months	1979	1980	1981	1982	1983
January	8.8	8.0	9.0	9.1	9.5
February	7.9	7.2	8.1	8.2	8.1
March	8.3	7.3	8.0	8.0	8.3
April	7.3	7.0	7.3	7.5	7.6
May	7.2	7.6	7.5	7.5	7.4
June	7.3	7.9	7.7	7.7	7.4
July	8.0	8.7	8.3	8.4	7.9
August	8.6	9.5	8.7	8.5	8.6
September	8.4	8.8	8.2	8.3	8.4
October	9.4	8.9	8.8	8.5	8.8
November	9.2	9.0	8.6	8.4	8.8
December	9.7	10.1	9.6	9.8	9.2

Trend

Compared to the 1982 total, the number of robberies in 1983 decreased 8 percent overall, as well as in the Nation's cities and rural counties. A decline of 9 percent was recorded by the suburban counties. In the regions, robbery offenses decreased 10 percent in the Northeastern States, 9 percent in the Southern States, 8 percent in the Western States, and 6 percent in the North Central States.

The accompanying chart depicts the trend in the volume of robbery, as well as the robbery rate, for the years 1979-1983. In 1983, the number of robbery offenses was 5 percent higher than in 1979 and 13 percent above the 1974 total.



Rate

Nationally in 1983, the robbery rate was 214 per 100,000 inhabitants, down 9 percent from the 1982 rate. With 713 robberies per 100,000 people, the highest rate was experienced in cities with populations over 250,000. MSAs recorded a rate of 273 robberies per 100,000 inhabitants, and in cities outside metropolitan areas, the rate was 49. The lowest incidence was in the rural areas where the rate was 17 per 100,000 people.

Robbery occurred most frequently in the Northeastern States where the rate was 314 per 100,000 inhabitants. The rate per 100,000 inhabitants for the Western States was 241; for the Southern States, 171; and for the North Central States, 166.

Nature

The value of property stolen due to robberies in 1983 was an estimated $323 million, with an average loss per incident of $645. The impact of this violent crime on its victims cannot be measured in terms of monetary loss alone. While the object of a robbery is to obtain money or property, the crime always involves force or threat of force, and many victims suffer serious personal injury.

Robberies on streets or highways accounted for more than half of the offenses in this category. The average dollar loss for this type of robbery was $397. Although accounting for only 1 percent of all robberies, those of banks registered the highest average loss, $4,057 per incident.

[1]Because of rounding, percentages may not add to totals.

Firearms were the weapons used in the commission of 37 percent of all robberies during 1983. Forty percent were committed through the use of strong-arm tactics; 14 percent with knives or cutting instruments; and 9 percent with other weapons.

Bank robberies were up 18 percent in volume for the 5-year period, 1979 versus 1983. During the same timespan, robberies of gas and service stations fell 33 percent; those of convenience stores dropped 7 percent; and those of other commercial establishments declined 5 percent. Up in number were street robberies (39 percent) and residential robberies (19 percent).

Robbery, Type of Weapon Used, 1983

[Percent distribution]

Total	100.0	36.7	13.6	9.5	40.3

[1]Because of rounding, percentages may not add to totals.

Clearances

Twenty-six percent of the robbery offenses reported to law enforcement were cleared during 1983. Rural law enforcement agencies registered the highest robbery clearance rate, 44 percent. Agencies in suburban areas cleared 29 percent and those in cities, 25 percent. Persons under the age of 18 were the offenders in 12 percent of all 1983 robbery clearances. This age group accounted for 15 percent of the suburban area clearances, 12 percent of those in the cities, and 7 percent of the rural county clearances.

Persons Arrested

Law enforcement agencies made 5 percent fewer robbery arrests in 1983 than in 1982. The number of persons arrested was down 6 percent in the cities and 4 percent in the suburban counties but declined less than 1 percent in the rural counties.

During 1983, 68 percent of the persons arrested for robbery were under 25 years of age, 48 percent were under 21, and 26 percent were under 18. Ninety-three percent of the arrestees were male.

From the standpoint of race, 63 percent of those arrested were black, 36 percent were white, and the remainder were of other races. Twelve percent of the robbery arrestees were Hispanic.

When compared with the 1979 total, robbery arrests showed a 2-percent increase in 1983. Although adult arrests were up 9 percent during this period, those of persons under 18 decreased 14 percent.

AGGRAVATED ASSAULT

DEFINITION

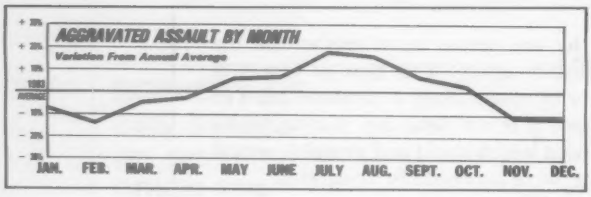
Aggravated assault is an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed.

TREND

Year	*Number of offenses*	*Rate per 100,000 inhabitants*
1982	*655,383*	*283.1*
1983	*639,532*	*273.3*
Percent change	–2.4	–3.4

Volume

Accounting for 5 percent of the Crime Index total and 52 percent of the violent crime total, aggravated assaults numbered an estimated 639,532 nationally in 1983. The Southern States, the most populous region, reported 38 percent of all aggravated assaults, followed by the Western States with 23 percent; the North Central States with 20 percent; and the Northeastern States with 19 percent.



In 1983, as in previous years, the highest volume of aggravated assaults occurred in the summer months.

Aggravated Assault by Month, 1979-1983

[Percent of annual total]

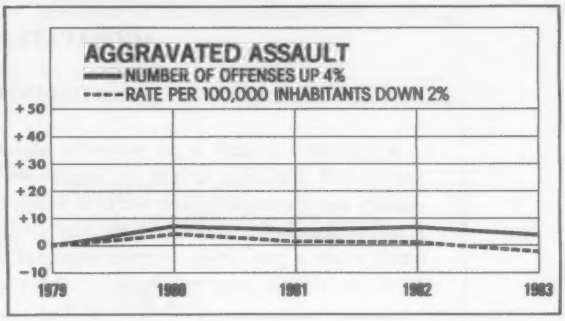
Months	1979	1980	1981	1982	1983
January	7.0	6.9	7.4	7.3	7.7
February	6.7	6.6	7.1	7.1	7.1
March	8.1	7.6	8.0	8.1	7.9
April	7.9	7.7	8.2	8.3	8.1
May	8.5	8.9	8.7	9.0	8.9
June	8.9	9.6	9.1	9.2	8.9
July	9.4	10.3	9.4	9.7	9.8
August	9.1	10.4	9.4	9.0	9.7
September	9.2	8.9	8.6	8.7	8.9
October	9.2	8.0	8.5	8.5	8.5
November	8.1	7.7	7.7	7.4	7.4
December	7.9	7.4	7.9	7.7	7.3

Trend

In 1983, aggravated assault decreased 2 percent in volume as compared to 1982. For the 2-year period, the trend in the geographic regions showed a decrease of 4 percent in the Southern States, a 3-percent decline in the Northeastern States, a 1-percent drop in the North Central States, and a decrease of less than 1 percent in the Western States.

Similar to the national experience, city law enforcement agencies recorded a 2-percent drop in their aggravated assault counts from 1982 to 1983. Those in suburban and rural counties experienced 3- and 5-percent decreases, respectively.

The 5-year trend, 1983 over 1979, showed an increase of 4 percent in the aggravated assault volume.



Rate

On the average, 273 victims of aggravated assault were reported per 100,000 United States inhabitants during 1983. In MSAs, the aggravated assault rate was 306 per 100,000 inhabitants; in cities outside metropolitan areas, it was 240; and in rural counties, it was 124 per 100,000 inhabitants.

Nationwide, the rate for aggravated assault decreased 3 percent from 1982 and was down 2 percent from 1979.

Nature

In 1983, 29 percent of the aggravated assaults were committed with blunt objects or other dangerous weapons; 26 percent with personal weapons such as hands, fists, and feet; 24 percent with knives or other cutting instruments; and 21 percent with firearms.

A comparison of 1979 and 1983 revealed that aggravated assaults committed with firearms declined 4 percent in number. During the same 5-year period, assaults by knives or other cutting instruments increased 11 percent, those with personal weapons rose 10 percent, and those where blunt objects or other dangerous weapons were used showed no change.

The following table shows the 1983 regional experience of aggravated assault by type of weapon used.

Aggravated Assault, Type of Weapon Used, 1983

[Percent distribution]

Region	Total all weapons[1]	Fire-arms	Knife or other cutting instru-ments	Other weapons; club, poison, etc.	Personal weapons
Northeastern States	100.0	14.1	25.0	29.5	31.3
North Central States	100.0	22.2	24.4	30.8	22.7
Southern States	100.0	24.9	25.3	27.4	22.4
Western States	100.0	20.4	20.6	30.0	29.0
Total	100.0	21.2	23.9	29.1	25.8

[1]Because of rounding, percentages may not add to totals.

Clearances

Law enforcement agencies throughout the Nation cleared an average of 61 per 100 reported cases of aggravated assault during 1983. The rural counties recorded the highest clearance rate, 70 percent.

Nine percent of the clearances reported nationally and by city and suburban county agencies were of offenses in which only persons under age 18 were identified as the assailants. Persons under 18 years of age accounted for 5 percent of the rural county aggravated assault clearances.

Persons Arrested

The estimated number of persons arrested for aggravated assault in 1983 was 298,830. Total arrests for this offense were down 3 percent from the 1982 total. Arrests of males declined 4 percent, while female arrests increased 1 percent for the same 2-year period.

During the 5-year period, 1979-1983, total arrests for aggravated assault increased 4 percent. Arrests of persons 18 years of age and over rose 7 percent, while the number of arrests of persons under age 18 decreased 13 percent.

In 1983, arrests of males for this offense outnumbered those of females by 6 to 1. Whites comprised 59 percent of the arrestees for aggravated assault; blacks, 39 percent; and all other races, the remainder. Eighty-eight percent of the arrestees were non-Hispanic. Persons arrested for this offense in 1983 comprised 59 percent of all arrestees for violent crimes.

448-194 O - 84 - 2

BURGLARY

DEFINITION

The Uniform Crime Reporting Program defines burglary as the unlawful entry of a structure to commit a felony or theft. The use of force to gain entry is not required to classify an offense as burglary. Burglary in this Program is categorized into three subclassifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

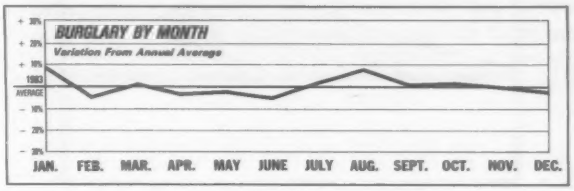
TREND

Year	*Number of offenses*	*Rate per 100,000 inhabitants*
1982	*3,437,206*	*1,484.5*
1983	*3,120,842*	*1,333.8*
Percent change	– 9.2	– 10.2

Volume

Estimated at over 3.1 million offenses in 1983, burglaries accounted for 26 percent of the Crime Index total and 29 percent of all property crime. The Southern States, the most populous region, recorded 34 percent of all reported burglaries. The Western States accounted for 25 percent, the North Central States for 22 percent, and the Northeastern States for 19 percent.

Burglary occurred most frequently in January of 1983.



Burglary by Month, 1979-1983

[Percent of annual total]

Months	1979	1980	1981	1982	1983
January	8.2	8.0	8.8	8.4	9.1
February	7.3	7.2	8.2	7.7	7.8
March	8.2	7.9	8.6	8.4	8.5
April	7.8	7.6	7.9	7.9	7.9
May	8.0	8.1	7.9	7.9	8.1
June	7.8	8.1	8.0	8.3	7.8
July	8.8	9.0	8.6	8.8	8.5
August	8.9	9.2	8.7	8.8	9.0
September	8.4	8.6	8.2	8.3	8.4
October	8.9	8.6	8.3	8.3	8.5
November	8.6	8.4	8.1	8.3	8.3
December	9.0	9.3	8.5	8.9	8.1

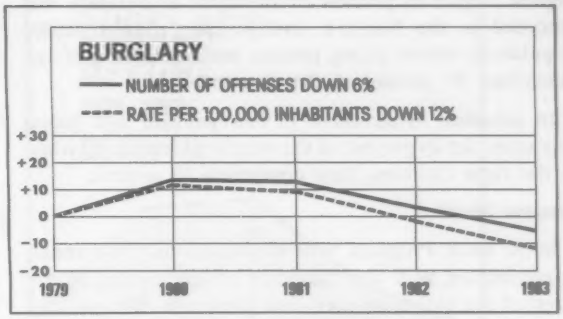
Trend

Nationwide trends showed the burglary volume decreasing 9 percent in 1983 from the 1982 total. City and suburban burglary counts dropped 9 percent, while the rural counties recorded an 8-percent decline. Five-year trends showed the 1983 total volume 6 percent lower than in 1979.

Geographically, all regions recorded significant declines in 1983 as compared to the 1982 level. Burglary decreased 13 percent in the Northeastern Region, 9 percent in both the Southern and North Central Regions, and 7 percent in the Western Region.

Rate

The 1983 burglary rate (1,334 per 100,000 inhabitants) was 10 percent below the 1982 rate and down 12 percent from the 1979 experience. In the MSAs, a rate of 1,501 for every 100,000 in population was reported. The cities outside metropolitan areas had a rate of 1,039 per 100,000, and the rural counties showed a rate of 656 per 100,000 inhabitants.



Down in all geographic regions, the burglary rate was 1,677 in the Western States, 1,345 in the Southern States, 1,187 in the Northeastern States, and 1,174 in the North Central States. The rate decreases were 13 percent in the Northeastern Region, 11 percent in the Southern Region, and 9 percent in both the North Central and Western Regions.

Nature

Accounting for 66 percent of the reported burglaries during 1983, residential burglaries decreased 8 percent, 1983 versus 1982. Nonresidential offenses accounted for the remaining 34 percent and were down 11 percent for the same 2-year period.

Daytime residential burglaries dropped 10 percent in volume, while those committed during the night declined 7 percent. The number of nonresidential burglaries recorded during the day fell 10 percent, and at night, 12 percent.

Seventy-one percent of the burglaries in 1983 involved forcible entry, 20 percent were unlawful entries (without force), and the remainder were forcible entry attempts.

Burglary victims suffered losses estimated at $2.7 billion in 1983, and the average dollar loss per burglary was $860. The average loss for residential offenses was $893, while for nonresidential property, it was $794.

Clearances

The 1983 national burglary clearance rate was 15 percent.

Law enforcement agencies in rural counties cleared 18 percent of the burglaries brought to their attention. Those in the suburban areas recorded a clearance rate of 16 percent, and agencies in cities obtained clearances in 14 percent of these crimes.

Adults were involved in 77 percent of all burglary offenses cleared, and only young people under 18 years of

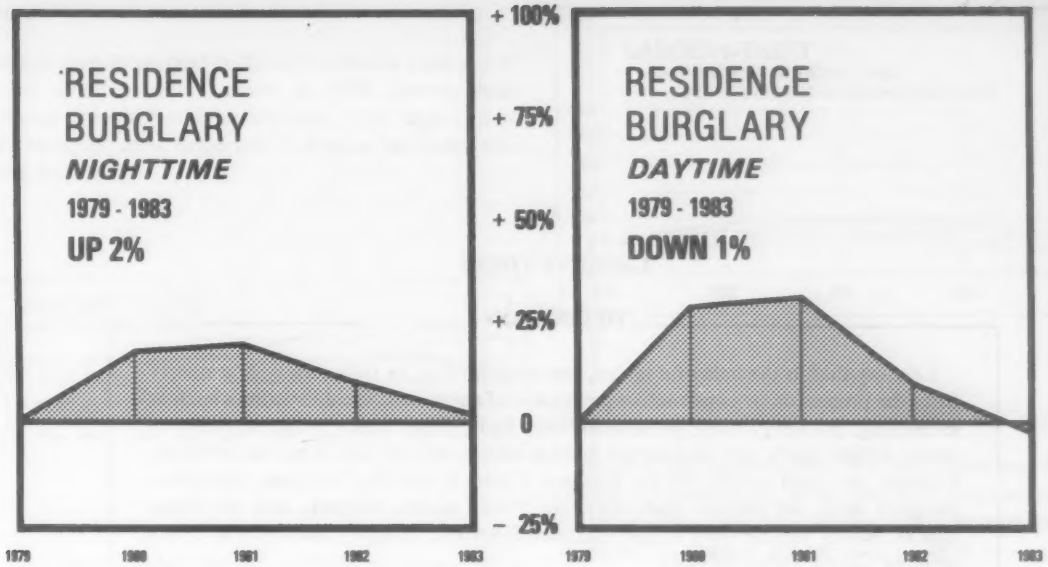
age were offenders in the remaining 23 percent. Similar to the national experience, persons under age 18 accounted for 23 percent of the burglary clearances in cities. The highest degree of juvenile involvement in burglary was recorded in the Nation's smallest cities (under 10,000 population) where young persons under 18 years of age comprised 30 percent of the clearances.

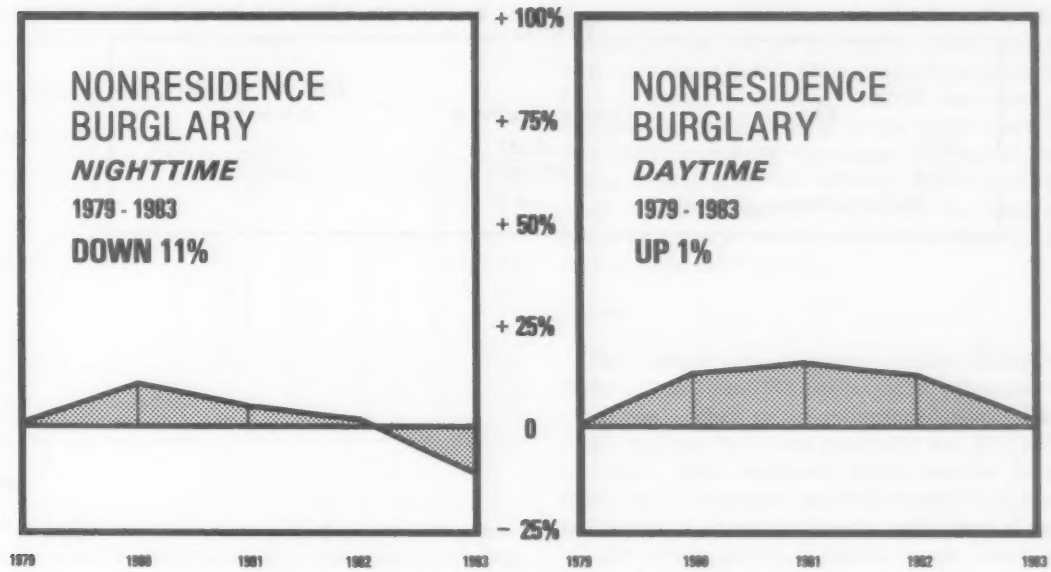
In suburban areas, those in this younger age group accounted for 26 percent of the burglary clearances, while in the rural counties, they comprised 22 percent.

Persons Arrested

In the UCR Program, several persons may be arrested in connection with the clearance of one crime, or the arrest of one individual may clear numerous offenses. The latter is often true in cases of burglary. A comparison of arrest figures for 1982 and 1983 shows a 9-percent decrease in total burglary arrests. Arrests of persons under 18 years of age dropped 13 percent, while adult arrests were down 7 percent. In 1983, burglary arrests dropped 10 percent in the suburban areas, 10 percent in the Nation's cities, and 6 percent in the rural counties.

During 1983, 75 percent of the burglary arrestees were under the age of 25, and 38 percent were younger than 18. An average of 7 of each 100 persons arrested for this crime during 1983 were female. Of the total burglary arrestees, whites accounted for 67 percent, blacks for 31 percent, and other races for the remainder. Eighty-seven percent of the persons arrested for burglary were non-Hispanic.





BURGLARIES OF UNKNOWN TIME OF OCCURRENCE ARE NOT INCLUDED.

LARCENY-THEFT

DEFINITION

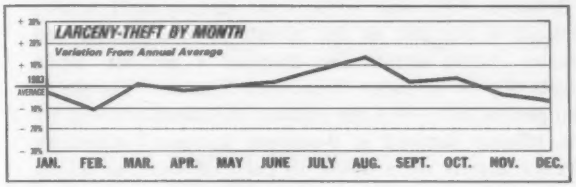
Larceny-theft is the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. It includes crimes such as shoplifting, pocket-picking, purse-snatching, thefts from motor vehicles, thefts of motor vehicle parts and accessories, bicycle thefts, etc., in which no use of force, violence, or fraud occurs. In the Uniform Crime Reporting Program, this crime category does not include embezzlement, "con" games, forgery, and worthless checks. Motor vehicle theft is also excluded from this category inasmuch as it is a separate Crime Index offense.

TREND

Year	*Number of offenses*	*Rate per 100,000 inhabitants*
1982	*7,136,361*	*3,082.2*
1983	*6,707,020*	*2,866.5*
Percent change	– 6.0	– 7.0

Volume

Comprising 56 percent of the Crime Index total and 62 percent of all property crimes in 1983, larceny-thefts numbered over 6.7 million offenses. This high-volume crime occurred most frequently in August and least often during February.



The highest number of larceny-thefts was reported by the Southern States, the most populous region, with 33 percent of the total. The Western States recorded 25 percent; the North Central States, 24 percent; and the Northeastern States, 18 percent.

Larceny-Theft by Month, 1979-1983

[Percent of annual total]

Months	1979	1980	1981	1982	1983
January	6.9	7.3	7.6	7.1	8.1
February	6.7	6.9	7.4	7.1	7.4
March	8.1	7.8	8.3	8.0	8.4
April	8.0	8.1	8.1	7.9	8.1
May	8.4	8.6	8.2	8.3	8.4
June	8.8	9.0	8.6	8.9	8.5
July	9.4	9.4	9.1	9.2	8.9

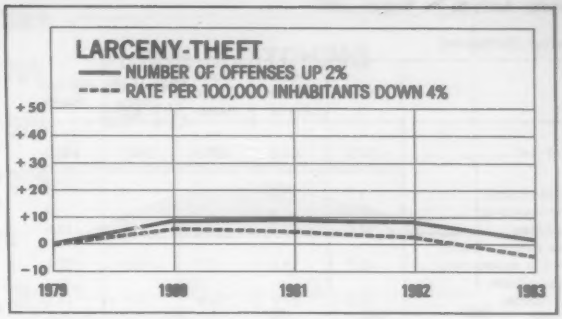
September	8.5	8.6	8.4	8.6	8.4
October	9.1	8.6	8.7	8.7	8.6
November	8.3	7.9	8.1	8.2	8.0
December	8.4	8.3	8.2	8.5	7.7

Trend

Nationally, the 1983 larceny-theft volume dropped 6 percent from the 1982 experience. Collectively, the cities, like the Nation as a whole, recorded a 6-percent decrease. For both the suburban and rural counties, decreases of 7 percent were registered.

Geographically, larceny declined 7 percent in the Northeastern Region and 6 percent each in the North Central, Southern, and Western Regions.

The change in the larceny-theft volume, 1983 versus 1979, shows a 2-percent increase over the 5-year period. From 1974, larceny-theft rose 27 percent nationwide.



Rate

In 1983, the larceny-theft rate was 2,866 per 100,000 inhabitants nationwide, a decrease of 7 percent from the previous year's rate. The rate was 4 percent lower than in 1979 but 15 percent higher than in 1974.

Collectively, the MSAs recorded a larceny-theft rate of 3,200 per 100,000 inhabitants. In cities outside metropolitan areas, the rate was 3,085; and in the rural counties, it was 964. By geographic region, the larceny-theft rate ranged from 3,576 per 100,000 population in the Western States to 2,480 per 100,000 inhabitants in the Northeastern States. The rate in the North Central States was 2,785 per 100,000 population, and in the Southern States, it was 2,757 per 100,000. Rates in all regions dropped in 1983 from the 1982 level. The North Central States' rate was down 6 percent, while those in all other regions declined 7 percent.

Nature

The average value of property stolen during larceny-thefts in 1983 was $348 per incident. When the average value was applied to the estimated number of larceny-thefts, the loss to victims nationally was $2.3 billion for the year. This estimated dollar loss is considered conservative since other studies have indicated that many offenses in the larceny category, particularly if the value of the stolen goods is small, never come to law enforcement attention.

The average value of goods and property reported stolen as a result of pocket-picking in 1983 was $218; by purse-snatching, $178; and by shoplifting, $72. Miscellaneous thefts from buildings and thefts from motor vehicles averaged $510 and $381, respectively, and thefts of motor vehicle accessories resulted in average losses of $238 per offense. The average value loss for bicycle theft was $152 per incident and for thefts from coin-operated machines, $133.

Larceny Analysis by Region, 1983

[Percent distribution]

	Total[1]	North-eastern States	North Central States	Southern States	Western States

All others	21.5	16.1	23.7	24.3	19.5

[1]Because of rounding, percentages may not add to totals.

Thefts of motor vehicle parts, accessories, and contents accounted for 38 percent of the larceny-theft volume in 1983. Other major types of thefts which contributed to the large number of these crimes were those from buildings, 16 percent; shoplifting, 13 percent; and bicycles, 8 percent. The remainder were distributed among pocket-picking, purse-snatching, thefts from coin-operated machines, and miscellaneous types of larceny-thefts. The accompanying table presents the distribution of larceny-theft by type and geographic region.

Clearances

Nationwide in 1983, 19 percent of all reported larceny-thefts were cleared. The Nation's city and suburban law enforcement agencies each cleared 20 percent of the larceny-thefts brought to their attention, while those in rural counties cleared 17 percent. Twenty-four percent of the national clearances for larceny-theft involved persons under 18 years of age exclusively. Twenty-six percent of the clearances in suburban areas, 25 percent of those in cities, and 16 percent of those in rural counties were accounted for by persons of this young age group.

Persons Arrested

Between 1982 and 1983, total larceny-theft arrests declined 4 percent, as did arrests of both males and females. Adult arrests also dropped 4 percent, while arrests of persons under 18 declined 5 percent. For the 5-year period, 1979-1983, the number of persons arrested for this offense showed a 9-percent increase. Although juvenile arrests were down 13 percent, those of adults were up 23 percent.

The larceny-theft category not only comprised the largest portion of the total Crime Index offenses reported, it also accounted for 54 percent of the total arrests for Index crimes in 1983. Forty-eight percent of these arrests were of persons under 21 years of age, and 32 percent of the arrestees were under 18. Females, who were arrested for this offense more often than for any other in 1983, comprised 30 percent of all larceny-theft arrestees.

Whites accounted for 65 percent of the total larceny-theft arrests and blacks for 33 percent. All other races made up the remainder. Ninety percent of the arrestees were persons of non-Hispanic ethnicity.

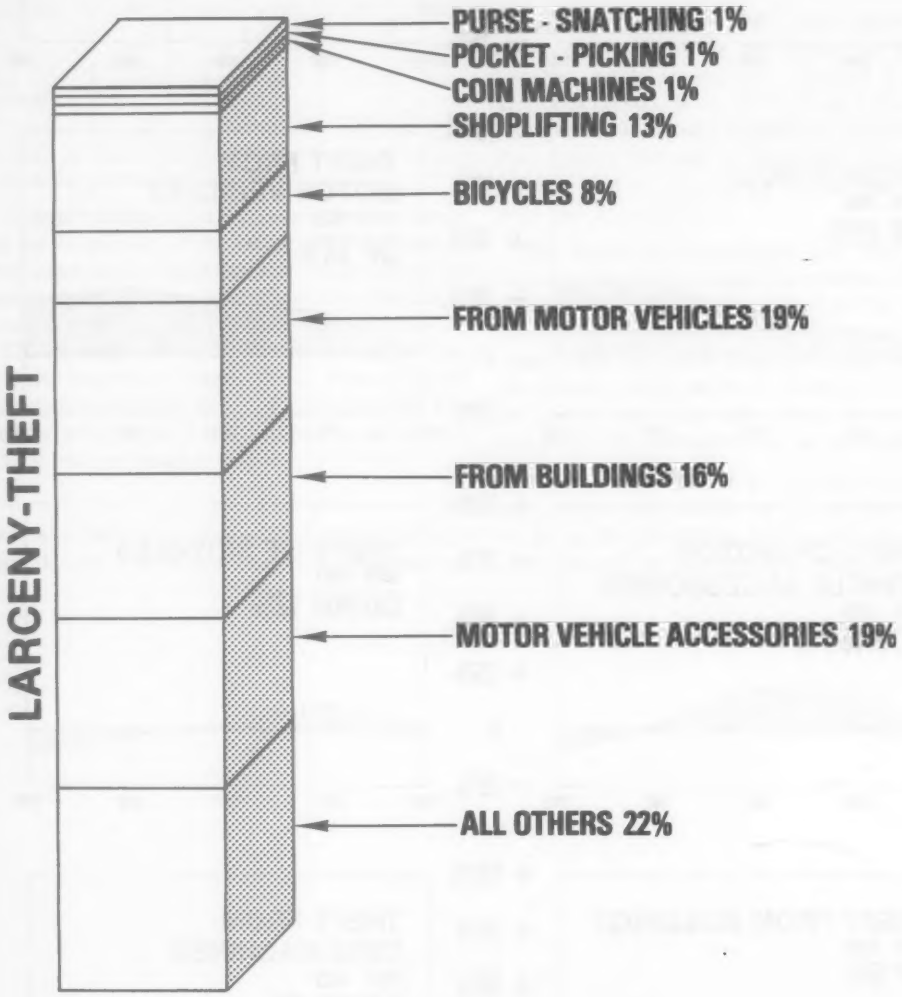
LARCENY ANALYSIS
1983



MOTOR VEHICLE THEFT

DEFINITION

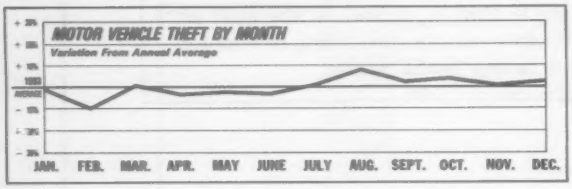
In Uniform Crime Reporting, motor vehicle theft is defined as the theft or attempted theft of a motor vehicle. This definition excludes the taking of a motor vehicle for temporary use by those persons having lawful access.

TREND

Year	*Number of offenses*	*Rate per 100,000 inhabitants*
1982	*1,058,610*	*457.2*
1983	*1,004,372*	*429.3*
Percent change	– 5.1	– 6.1

Volume

Thefts of motor vehicles in the United States numbered an estimated 1,004,372 in 1983. These offenses comprised 8 percent of all Index crimes and 9 percent of all property crimes. By region, 28 percent of the total volume of motor vehicle thefts was reported by the Northeastern States in 1983. The Southern States accounted for 26 percent, the North Central States for 23 percent, and the Western States for 22 percent.



Monthly volume figures show that the greatest number of motor vehicle thefts was recorded in August, while the lowest volume occurred in February.

Motor Vehicle Theft by Month, 1979-1983

[Percent of annual total]

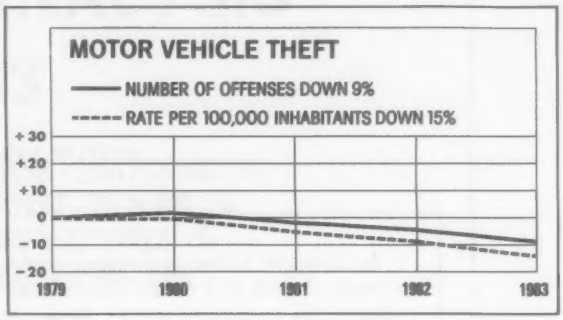
Months	1979	1980	1981	1982	1983
January	7.7	8.0	8.2	7.9	8.3
February	7.2	7.4	7.7	7.5	7.5
March	8.2	8.2	8.2	8.2	8.4
April	8.0	8.0	7.9	8.0	8.0
May	8.1	8.4	8.2	8.2	8.1
June	8.2	8.5	8.3	8.6	8.0
July	8.9	9.2	8.8	8.9	8.5
August	9.1	9.5	9.1	9.1	9.1
September	8.7	8.6	8.4	8.5	8.5
October	9.2	8.5	9.0	8.6	8.7
November	8.5	7.8	8.2	8.1	8.4
December	8.4	7.9	8.0	8.3	8.5

Trend

When comparing 1983 to 1982, the number of motor vehicle thefts decreased 5 percent nationwide. In the suburban counties, this offense also dropped 5 percent. The Nation's cities recorded a 6-percent decline, and the rural counties registered a 7-percent drop.

All regions experienced declines in the number of motor vehicle thefts reported in 1983. The volume dropped 8 percent in the Northeastern States, 6 percent in the Southern States, 3 percent in the Western States, and 2 percent in the North Central States.

The accompanying chart shows that the number of motor vehicle thefts has decreased 9 percent from the 1979 volume. However, the thefts of motor vehicles increased 3 percent over the 10-year period, 1974-1983.



Rate

The motor vehicle theft rate in 1983 was 429 per 100,000 inhabitants nationwide, down 6 percent from the 1982 rate. Compared to the 1974 experience, the rate decreased 7 percent, while over the 5-year period, 1979-1983, it dropped 15 percent.

In the MSAs, the motor vehicle theft rate was 523 per 100,000 inhabitants. Cities outside metropolitan areas (other cities) had a motor vehicle theft rate of 189, and the rural counties recorded the lowest rate, 100. The most heavily populated municipalities of the Nation continue to account for the high motor vehicle theft rates, clearly indicating that this offense is primarily a large-city problem.

Regionally, the Northeastern States reported the highest motor vehicle theft rate, 577 per 100,000 inhabitants. The remaining regions' rates per 100,000 population were 488 in the Western States; 392 in the North Central States; and 331 in the Southern States. The rate declined 8 percent in both the Northeastern and Southern Regions, 5 percent in the Western Region, and 3 percent in the North Central Region.

In 1983, an estimated average of 1 of every 161 registered motor vehicles was stolen nationally. Geographically, this rate was greatest in the Northeastern Region where 1 of every 100 motor vehicles registered was stolen. The other three regions reported lesser rates — 1 per 152 in the Western States, 1 per 182 in the North Central States, and 1 per 218 in the Southern States.

Nature

During 1983, the estimated total national loss due to motor vehicle theft was $4 billion. The average value of vehicles stolen was $3,934 at the time of theft.

Of all motor vehicles reported stolen during the year, 76 percent were automobiles, 14 percent were trucks or buses, and the remainder were other types.

Motor Vehicle Theft, 1983

[Percent distribution]

Region	Total[1]	Autos	Trucks and buses	Other vehicles
Northeastern States	100.0	89.5	5.3	5.2
North Central States	100.0	79.8	11.0	9.2
Southern States	100.0	65.7	20.7	13.7
Western States	100.0	66.8	19.7	13.5
Total	100.0	75.7	14.0	10.3

[1]Because of rounding, percentages may not add to totals.

Clearances

Law enforcement agencies nationwide cleared 15 percent of the motor vehicle thefts reported in their locales during 1983. Those in cities cleared 13 percent; those in the suburban areas cleared 18 percent; and rural agencies cleared 34 percent. Clearance percentages for motor vehicle theft ranged from 9 percent in the Northeastern States to 20 percent in the Southern States. In the Western States, the clearance rate was 16 percent, and in the North Central States, 14 percent.

In the suburban areas, persons in the under 18 age group accounted for 19 percent of the motor vehicle thefts cleared. In the Nation's cities and rural counties, they comprised 18 percent.

Persons Arrested

As in prior years, motor vehicle theft arrests primarily involved the younger segment of the Nation's population. During 1983, 55 percent of all persons arrested for motor vehicle theft were under 21 years of age, and those under 18 accounted for 35 percent of the total.

The number of arrests for this offense during 1983 decreased 8 percent from the previous year's total. Arrests of persons under 18 were down 12 percent, and adult arrests decreased 5 percent. For all ages collectively, a 27-percent drop in motor vehicle theft arrests was evident during the period 1979-1983.

In 1983, 66 percent of motor vehicle theft arrestees were white, 32 percent were black, and the remainder were of other races. Fifteen percent of all persons arrested for this offense were Hispanic.

ARSON

DEFINITION

Arson is defined by the Uniform Crime Reporting Program as any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

Only fires determined through investigation to have been willfully or maliciously set are classified as arsons. Fires of suspicious or unknown origins are excluded.

Background

The UCR Program's collection of data on arson as a Part I Crime Index offense started in 1979 following a congressional mandate. Recognizing that arson has characteristics not common with other Index crimes, the data collection procedures were developed on the basis of input from the fire service and law enforcement communities, as well as the insurance industry. Specific guidelines and requirements were established for reporting arson offenses.

Unlike other Crime Index offenses, the occurrence of arson is not always immediately established by officials at the scene. Since the entire concept of the Crime Index is based on actual offenses known to law enforcement, it was decided that only fires determined through investigation to have been willfully or maliciously set, including attempts, were to be reported as arsons. Suspicious fires or those of unknown origin were to be excluded until definitely determined to be arsons.

The UCR policy on scoring multiple-offense situations, i.e., two or more Index crimes occurring at the same time and place, was modified for arson reporting only. Before the addition of arson to the Index, contributing law enforcement agencies were instructed that in such situations only one crime, based on an established hierarchy of offenses, was to be reported. It was, however, recognized that arson frequently occurs in conjunction with other Index crimes and that valuable information could be lost if the past procedure was employed. Therefore, it was determined that arson should be exempt from the hierarchy rule and that all arsons should be reported regardless of their commission in conjunction with another Crime Index offense.

Volume

During 1983, 11,286 law enforcement agencies representing approximately 89 percent of the Nation's inhabitants reported a total of 101,947 arson offenses. Data in the tables on the accompanying pages are based on figures received from 11,176 law enforcement agencies providing complete, detailed information, including type of structure and estimated monetary value of property damaged. Although the population coverage is insufficient to estimate the total 1983 United States arson experience, additional reported data on arson clearances and trends are shown in Tables 5 through 12 of this Section.

Trend

Based on reports from law enforcement agencies providing 6 or more months of arson data for 1982 and 1983, arson trends are shown in Tables 9 through 12. Nationally, an 11-percent decrease in reported arsons occurred during the 2-year period. With respect to city size, the trend ranged from a 14-percent decrease in cities with 250,000 to 499,999 inhabitants to an 8-percent decline in cities with 10,000 to 24,999 inhabitants. The Nation's suburban counties recorded a 9-percent drop, and the rural counties registered a 10-percent decline.

By property type, those arsons in which structures were the targets decreased 2 percent nationwide. Arsons of mobile property were down 6 percent, and those of all other property declined 15 percent.

Caution is recommended when viewing arson trend information. The percent change figures may have been influenced by improved arson reporting procedures during the collection's relatively limited timespan. It is expected that year-to-year statistical comparability will improve as the collection continues.

Rate

Arson rates per 100,000 inhabitants are shown in an accompanying table. Since the population coverage for arson data is lower than for the other Crime Index offenses, these data were tabulated independently. Based only on figures from law enforcement agencies supplying 12 months of statistics for all Index crimes, including arson, the rates ranged from 96 per 100,000 inhabitants in cities with populations over 1 million to 24 per 100,000 rural county inhabitants. The overall 1983 national arson rate was 49 per 100,000 population.

Arson Rate, Population Group, 1983

[8,377 agencies; 1983 estimated population 177,797,000; Rate per 100,000 inhabitants]

Group	Rate
TOTAL	48.7
TOTAL CITIES	54.5
Group I (cities 250,000 and over)	83.8
(cities 1,000,000 and over)	96.2
(cities 500,000 to 999,999)	65.9
(cities 250,000 to 499,999)	83.5
Group II (cities 100,000 to 249,999)	62.0
Group III (cities 50,000 to 99,999)	50.6
Group IV (cities 25,000 to 49,999)	36.2
Group V (cities 10,000 to 24,999)	29.0
Group VI (cities under 10,000)	27.8
Suburban Counties	41.4
Rural Counties	24.1
Suburban Area	36.5

Nature

Structures comprised 61 percent of the property targeted by arsonists in 1983. Mobile property (motor vehicles, trailers, airplanes, boats, etc.) accounted for 23 percent, and the remainder were directed at other property (crops, timber, fences, signs, etc.).

Arson, Type of Property, 1983

[11,176 agencies; 1983 estimated population 186,865,000]

Property classification	Number of offenses	Percent distribution
TOTAL	**84,700**	**100.0**
TOTAL STRUCTURE	51,690	61.0
Single occupancy residential	24,371	28.8
Other residential	8,064	9.5
Storage	5,154	6.1
Industrial/manufacturing	825	1.0
Other commercial	6,223	7.3
Community/public	4,750	5.6
Other structure	2,303	2.7
TOTAL MOBILE	19,724	23.3
Motor vehicles	17,992	21.2
Other mobile	1,732	2.0
OTHER	13,286	15.7

Sixty-three percent of the structural arsons in 1983 involved residential property, with 47 percent of such offenses directed at single-occupancy residences. Fifteen percent of all targeted structural property was uninhabited or abandoned at the time the arson occurred.

Motor vehicles comprised 91 percent of all mobile property at which arsons were directed.

Arson, Structures Not in Use, 1983

[11,176 agencies; 1983 estimated population 186,865,000]

Type of structure	Number of offenses	Percent not in use
TOTAL	**51,690**	**14.9**
Single occupancy residential	24,371	18.0
Other residential	8,064	11.9

Motor vehicles	17,992	2,938
Other mobile	1,732	8,280
OTHER	13,286	610

Clearances

The 1983 national arson clearance rate was 17 percent. City law enforcement agencies cleared 16 percent of the arson offenses brought to their attention; those in suburban counties cleared 21 percent; and those in the rural counties cleared 22 percent. Agencies in cities with fewer than 10,000 inhabitants registered the highest arson clearance rate, 24 percent.

Thirty-four percent of all 1983 arson clearances involved solely young people under age 18, a higher percentage of juvenile involvement than for any other Index crime. Persons under 18 accounted for 34 percent of the structural arson clearances, 18 percent of those for mobile property, and 56 percent for arsons of all other property.

The tables on the following page show clearance data only for those 11,176 law enforcement agencies which were able to furnish breakdowns by type for the structural and mobile classifications. As can be seen, the highest clearance rate (37 percent) was recorded for offenses in which community or public structures were involved, while the lowest (11 percent) was registered for motor vehicles.

Arson Offenses Cleared by Arrest,[1] 1983

[11,176 agencies[2]; 1983 estimated population 186,865,000]

[1]Includes offenses cleared by exceptional means.
[2]The number of agencies used in this table is lower than the number used in Tables 19-22. To be included in this table, it was necessary that arson clearances be reported by property classification.

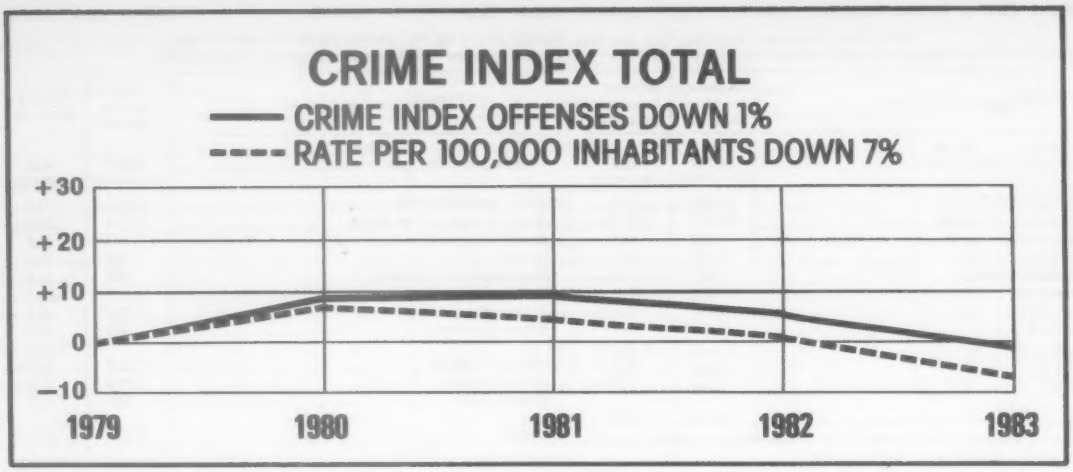
Persons Arrested

During 1983, the estimated number of arrests for arson totaled 19,800. Thirty-eight percent of the arrestees were under 18 years of age and 62 percent were under 25. Males comprised 88 percent of all arson arrestees.

By race, 76 percent of the persons arrested for this offense were white, 23 percent were black, and the remainder were of other races. Hispanics comprised 7 percent of the arrestees.

Five- and 10-year trends show that the 1983 arson arrest total for all ages decreased 5 percent from the 1979 level but was up 11 percent from the 1974 total. Arrests for this offense in 1983 were down 6 percent nationwide from the previous year, while they declined 8 percent in the Nation's cities and 1 percent in the rural counties. Suburban counties showed a decrease of less than 1 percent. From 1982, arrests of persons under the age of 18 declined 4 percent and adult arrests dropped 8 percent nationwide. Male arrests were down 5 percent and female arrests decreased 12 percent in the same 2-year period. Since 1974, however, both male and female arrests for arson have risen, 9 and 31 percent, respectively.



Crime Index Total

The estimated 12 million Crime Index offenses occurring in 1983 represented a 7-percent decline from 1982. The 2-year decline was greater than any since 1960, the earliest year for which comparable data are available. Considering 5- and 10-year time frames, the 1983 total was down 1 percent from the 1979 figure but was 18 percent higher than that for 1974.

Overall violent crime dropped 5 percent in 1983 as compared to 1982. The 1983 violent crime level was 4 percent higher than in 1979 and 27 percent above the 1974 experience.

Collectively, the number of property crimes in 1983 fell 7 percent from the 1982 volume and was 2 percent lower than in 1979. The 10-year trend showed a 17-percent rise over 1974.

Two-year comparisons (1983 versus 1982) for the individual violent crimes showed both murder and robbery down 8 percent. While aggravated assault declined 2 percent, the number of forcible rapes showed no change.

In the property crime category, burglary decreased 9 percent, larceny-theft declined 6 percent, and motor vehicle theft dropped 5 percent.

The estimated figures for all Crime Index offenses covering these time periods are set forth in the table, "National Crime, Rate, and Percent Change."

National Crime, Rate, and Percent Change

Regional Offense and Population Distribution, 1983

Region	Population	Crime Index total	Modified Crime Index total	Murder	Forcible rape	Robbery	Aggravated assault	Burglary	Larceny-theft	Motor vehicle theft	Arson
United States total[1]	100.0	100.0		100.0	100.0	100.0	100.0	100.0	100.0	100.0	
Northeastern States	21.2	19.9		17.4	16.3	31.1	19.4	18.8	18.3	28.5	
North Central States	25.2	23.3		19.6	23.1	19.6	19.6	22.2	24.5	23.0	
Southern States	34.0	32.6		42.9	34.7	27.2	37.8	34.3	32.7	26.2	
Western States	19.6	24.2		20.1	25.9	22.1	23.2	24.7	24.5	22.3	

Provided in the table, "Regional Offense and Population Distribution, 1983," are data showing the geographical distribution of estimated Index crimes and population. When utilizing figures presented on a regional basis in this publication, the reader is cautioned to consider each region's proportion of the total United States population. For example, while the Southern States accounted for the largest volume of Crime Index offenses in 1983, they also represented the greatest regional population.

The table, "Crime Rate, Region, 1983," lists the crime rates per 100,000 inhabitants for the four geographic regions of the United States. Presented in the table, "Crime Rate, Area, 1983," are data for MSAs, rural counties, and cities and towns outside metropolitan areas (other cities). Crime rates relate the incidence of reported crime to population; however, many factors influence the nature and extent of crime in a particular community.

Crime Rate, Region, 1983

[Rate per 100,000 inhabitants]

Offense	North-eastern States	North Central States	Southern States	Western States
Crime Index total	4,841.7	4,767.6	4,952.9	6,357.5
Modified Crime Index total				
Violent crime	597.2	416.2	519.7	616.7
Property crime	4,244.5	4,351.3	4,433.2	5,740.8
Murder	6.8	6.4	10.4	8.5
Forcible rape	26.0	31.0	34.4	44.4
Robbery	313.9	166.2	171.2	240.5

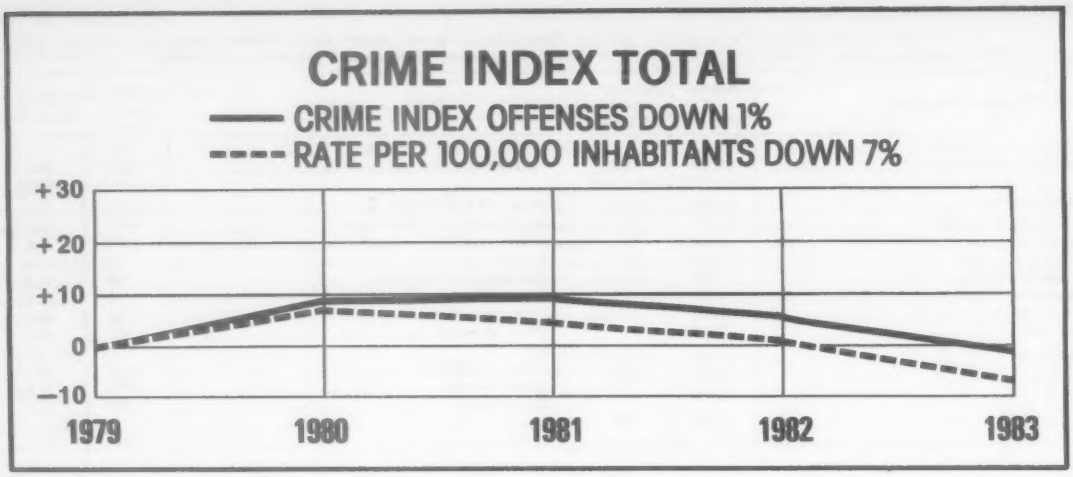
Burglary	1,187.3	1,174.4	1,344.9	1,676.7
Larceny-theft	2,479.8	2,784.8	2,757.5	3,576.4
Motor vehicle theft	577.4	392.1	330.8	487.7
Arson				



Crime Index Total

The estimated 12 million Crime Index offenses occurring in 1983 represented a 7-percent decline from 1982. The 2-year decline was greater than any since 1960, the earliest year for which comparable data are available. Considering 5- and 10-year time frames, the 1983 total was down 1 percent from the 1979 figure but was 18 percent higher than that for 1974.

Overall violent crime dropped 5 percent in 1983 as compared to 1982. The 1983 violent crime level was 4 percent higher than in 1979 and 27 percent above the 1974 experience.

Collectively, the number of property crimes in 1983 fell 7 percent from the 1982 volume and was 2 percent lower than in 1979. The 10-year trend showed a 17-percent rise over 1974.

Two-year comparisons (1983 versus 1982) for the individual violent crimes showed both murder and robbery down 8 percent. While aggravated assault declined 2 percent, the number of forcible rapes showed no change.

In the property crime category, burglary decreased 9 percent, larceny-theft declined 6 percent, and motor vehicle theft dropped 5 percent.

The estimated figures for all Crime Index offenses covering these time periods are set forth in the table, "National Crime, Rate, and Percent Change."

National Crime, Rate, and Percent Change

Offense	Estimated crime 1983		Percent change over 1982		Percent change over 1979		Percent change over 1974

Note

The collection of statistics on arson as a Crime Index offense began in 1979. However, 1983 annual figures are not available for inclusion in tables presenting statistics for the total United States. Arson totals reported by individual law enforcement agencies are displayed in Tables 5 through 8. Two-year arson trends are shown in Tables 9 through 12.

Crime Index Tabulations

Data on crime in the United States as a whole; geographic divisions; individual states; Metropolitan Statistical Areas; cities, towns, and counties; and college and university campuses are presented in this Section's tabular portions. Although the total number of actual criminal offenses occurring is unknown, the volume of crimes reported to law enforcement agencies represents an indicator of criminal activity.

In addition to the presentations outlined above, national averages for the value of property stolen in connection with each offense are presented. Further breakdowns by type for the robbery, burglary, larceny-theft, and arson classifications are listed. Data on the type and value of property stolen and recovered are also provided.

In reviewing the tables in this report, it must be remembered that many factors can cause the volume and type of crime to vary from place to place. Population, one of these factors, is used in computing crime rates; however, all communities are affected to some degree by seasonal or transient populations. Since counts of current, permanent population are used in their construction, crime rates do not account for short-term population variability. A discussion of various factors contributing to the amount of crime in a given area is shown on page *v* of this publication.

National data can serve as a guide for the law enforcement administrator in analyzing the local crime count, as well as the performance of the jurisdiction's law enforcement agency. The analysis, however, should not end with a comparison based on data presented in this publication. It is only through an appraisal of local conditions that a clear picture of the community crime problem or the effectiveness of the law enforcement operation is possible.

[1]Populations are Bureau of the Census provisional estimates as of July 1, 1983, and are subject to change.
[2]Although arson data are included in the trend and clearance tables, sufficient data are not available to estimate totals for this offense.
[3]Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, and motor vehicle theft. Data are not included for the property crime of arson.
[4]The percentage representing area actually reporting will not coincide with the ratio between reported and estimated crime totals, since these data represent the sum of the calculations for individual states which have varying populations, portions reporting, and crime rates.

[1]Populations are Bureau of the Census provisional estimates as of July 1, except April 1, 1980, preliminary census counts, and are subject to change.
[2]Due to rounding, the offenses may not add to totals.
[3]Although arson data are included in the trend and clearance tables, sufficient data are not available to estimate totals for this offense.
[4]Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, and motor vehicle theft. Data are not included for the property crime of arson.
[5]Annual totals for years prior to 1983 have been adjusted and may not be consistent with those in prior editions of this publication. See "Offense Estimation", pages 3 and 4 for details.
All rates were calculated on the offenses before rounding.

[1]Populations are Bureau of the Census provisional estimates as of July 1, 1982 and 1983, and all are subject to change.
[2]Although arson data are included in the trend and clearance tables, sufficient data are not available to estimate totals for this offense.
[3]Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault. Property crimes are offenses of burglary, larceny-theft, and motor vehicle theft. Data are not included for the property crime of arson.
[4]The 1982 totals have been adjusted. See "Offense Estimation", page 3, for details.
[5]Includes offenses reported by the U.S. Park Police for the District of Columbia and the Zoological Police.
[6]Population and offense data are not included in totals.
Offense totals based on all reporting agencies and estimates for unreported areas.

[1]Although arson data are included in the trend and clearance tables, sufficient data are not available to estimate totals for this offense.
[2]Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.
[3]Property crimes are offenses of burglary, larceny-theft, and motor vehicle theft. Data are not included for the property crime of arson.
[4]Includes offenses reported by the U.S. Park Police for the District of Columbia and the Zoological Police.

Table 5. — Number of Offenses Known to the Police, Cities and Towns 10,000 and over in Population, 1983

° Arson is shown only if 12 months of arson data were received. Leaders (...) indicate zero data. The Modified Crime Index total is the sum of the Crime Index offenses, including arson.

City by State	Population	Crime Index total	Modified° Crime Index total	Murder and non-negligent manslaughter	Forcible rape	Robbery	Aggravated assault	Burglary	Larceny-theft	Motor vehicle theft	Arson°

[1]The student enrollment figures provided by the U.S. Department of Education are for 1982, the most recent year available.
[2]Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.
[3]Property crimes are offenses of burglary, larceny-theft, and motor vehicle theft. Data are not included for the property crime of arson.
[4]Student enrollment figures are not available.

NOTE: Caution should be exercised in making any inter-campus comparisons or ranking schools, as university/college crime statistics are affected by a variety of factors. These include: demographic characteristics of the surrounding community, ratio of male to female students, number of on-campus residents, accessibility of outside visitors, size of enrollment, etc.

Table 7. — Number of Offenses Known to the Police, Suburban Counties, 1983

*Arson is shown only if 12 months of arson data were received. Leaders (...) indicate zero data. The Modified Crime Index total is the sum of the Crime Index offenses, including arson.

County by State	Crime Index total	Modified* Crime Index total	Murder and non-negligent man-slaughter	Forcible rape	Robbery	Aggra-vated assault	Burglary	Larceny-theft	Motor vehicle theft	Arson*

[1]The number of agency reports used in arson trends is less than used in compiling trends for other Crime Index offenses. However, the number of agencies used in the arson column of this table is greater than the number used in the tables on pages 38 and 39, since it is not necessary to report arsons by property classification to be included in this table. The Modified Crime Index total is the sum of the Crime Index offenses, including arson.

[2]Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.

[3]Property crimes are offenses of burglary, larceny-theft, and motor vehicle theft. Data are not included for the property crime of arson.

[4]Includes state police agencies with no county breakdown.

[5]Includes suburban city and county law enforcement agencies within metropolitan areas. Excludes core cities. Suburban cities and counties are also included in other groups.

[1]The number of agency reports used in arson trends is less than used in compiling trends for the other Crime Index offenses. However, the number of agencies used in the arson column of this table is greater than the number used in the tables on pages 38 and 39 since it is not necessary to report arsons by property classification breakdowns to be included in this table.
[2]Includes suburban city and county law enforcement agencies within metropolitan areas. Excludes core cities. Suburban cities and counties are also included in other groups.

Table 13. — Crime Rates, Offenses Known to the Police, Population Group, 1983

[1983 estimated population. Rate: Number of crimes per 100,000 inhabitants]

Population group	Crime Index total	Modified[1] Crime Index total	Violent crime[2]	Property crime[3]	Murder and non-negligent manslaughter	Forcible rape	Robbery	Aggravated assault	Burglary	Larceny-theft	Motor vehicle theft	Arson[1]

[1]Arson rates are not presented in this table because fewer agencies furnished complete reports for arson than for other seven Crime Index offenses. Independently tabulated arson rates appear on page 37 of this publication.
[2]Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.
[3]Property crimes are offenses of burglary, larceny-theft, and motor vehicle theft. Data are not included for the property crime of arson.
[4]Includes state police agencies with no county breakdown.
[5]Includes suburban city and county law enforcement agencies within metropolitan areas. Excludes core cities. Suburban cities and counties are also included in other groups. Population figures were rounded to the nearest thousand. All rates were calculated on the population before rounding.

Table 14. — Crime Rates, Offenses Known to the Police, Suburban and Nonsuburban Cities[1], Population Group, 1983

SECTION III
CRIME INDEX OFFENSES CLEARED

Law enforcement agencies clear crimes by arrest, or in some circumstances, by exceptional means. An offense is cleared by arrest when at least one person is arrested, charged with the commission of the offense, and turned over to the court for prosecution. It should be noted that several crimes may be cleared by the arrest of one person, while the arrest of many persons may clear only one offense. Clearances by exceptional means are recorded in instances when some element beyond police control precludes the placing of formal charges against the offender. Examples of circumstances allowing exceptional clearances are the death of the offender (suicide, justifiably killed by police or private citizen, etc.); the victim's refusal to prosecute after the offender has been identified; or the denial of extradition because the offender committed another crime and is being prosecuted in a different jurisdiction. In all exceptional clearance cases, law enforcement must have identified the offender, have enough evidence to support arrest, and know the offender's location.

Law enforcement agencies nationwide reported that 21 percent of the total Crime Index offenses were cleared during 1983. The overall violent crime clearance rate was 46 percent. For murder offenses, the rate was 76 percent; forcible rape, 52 percent; robbery, 26 percent; and aggravated assault, 61 percent. Of all property crimes reported, law enforcement agencies cleared 18 percent. Among the individual categories, the larceny-theft clearance rate was 19 percent, while for both burglary and motor vehicle theft, it was 15 percent. Clearances for crimes against persons are generally higher as more intense investigative efforts are often afforded these offenses and witnesses are more frequently available to identify the perpetrators.

For arson, the eighth Index crime, the clearance rate was 17 percent. When arson was considered in the Modified Crime Index total, the overall clearance rate remained the same, 21 percent.

Regionally, the highest overall Crime Index clearance rate was recorded by the Southern States with 23 percent. Following were the Western States with 21 percent and the Northeastern and the North Central States with 19 percent each.

Considering population groupings, the clearance rates ranged from 15 percent in cities with populations of 1 million or more to 23 percent in cities with under 25,000 inhabitants. Rural counties showed clearances for 22 percent of the Index crimes reported, while in suburban counties 21 percent were cleared.

Clearances Involving Only Persons under 18 Years of Age

One means of measuring the involvement of juveniles in crime is to identify the number of crimes in which they are offenders. Although no physical arrest may be made, a clearance by arrest can be recorded when the offender is a person under 18 years of age and is cited to appear in juvenile court or before other juvenile authorities. During 1983, 20 percent of the Crime Index offenses cleared involved only persons under the age of 18. Persons in this same age group accounted for 9 percent of the violent crime clearances and 23 percent of those for property crimes.

The percentage of juvenile involvement was lowest for murder (5 percent) and highest for arson (34 percent). Persons in the under 18 age category accounted for 27 percent of the 1983 U. S. population.

[1]Includes offenses cleared by exceptional means.
[2]The number of agency reports used in arson clearance rates is less than used in compiling clearance rates for other Crime Index offenses. However, the number of agencies used in the arson column for this table is greater than the number used in the clearance table on page 39, since it is not necessary to report clearances by property classification to be included in this table. The Modified Crime Index total is the sum of the Crime Index offenses, including arson.
[3]Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.
[4]Property crimes are offenses of burglary, larceny-theft, and motor vehicle theft. Data are not included for the property crime of arson.
[5]Includes suburban city and county law enforcement agencies within metropolitan areas. Excludes core cities. Suburban cities and counties are also included in other groups.

[1]Includes offenses cleared by exceptional means.
[2]The number of agency reports used in arson clearance rates is less than used in compiling clearance rates for other Crime Index offenses. However, the number of agencies used in the arson column for this table is greater than the number used in the clearance table on page 39, since it is not necessary to report clearances by property classification to be included in this table.
[3]Includes suburban city and county law enforcement agencies within metropolitan areas. Excludes core cities. Suburban cities and counties are also included in other groups.

Table 21. — Offenses Known Breakdown and Percent Cleared by Arrest[1], Population Group, 1983

[1983 estimated population]

Population group	Forcible rape		Robbery				Aggravated assault				Burglary			Motor vehicle theft			Arson[2]		
	Rape by force	Assault to rape-attempts	Firearm	Knife or cutting instrument	Other weapon	Strong-armed	Firearm	Knife or cutting instrument	Other weapon	Hands, fists, feet, etc.	Forcible entry	Unlawful entry	Attempted forcible entry	Autos	Trucks and buses	Other vehicles	Structure	Mobile	Other

[1]Includes offenses cleared by exceptional means.
[2]The number of agency reports used in arson clearance rates is less than used in compiling clearance rates for other Crime Index offenses. However, the number of agencies used in the arson column for this table is greater than the number used in the clearance table on page 39, since it is not necessary to report clearances by property classification to be included in this table.
[3]Includes suburban city and county law enforcement agencies within metropolitan areas. Excludes core cities. Suburban cities and counties are also included in other groups.

[1]Includes offenses cleared by exceptional means.

[2]The number of agency reports used in arson clearance rates is less than used in compiling clearance rates for other Crime Index offenses. However, the number of agencies used in the arson column for this table is greater than the number used in the clearance table on page 39, since it is not necessary to report clearances by property classification to be included in this table. The Modified Crime Index total is the sum of the Crime Index offenses, including arson.

[3]Violent crimes are offenses of murder, forcible rape, robbery, and aggravated assault.

[4]Property crimes are offenses of burglary, larceny-theft, and motor vehicle theft. Data are not included for the property crime of arson.

[5]Includes suburban city and county law enforcement agencies within metropolitan areas. Excludes core cities. Suburban cities are also included in other city groups.

SECTION IV
PERSONS ARRESTED

Arrests are primarily an indication of law enforcement activity as it relates to crime. Although arrest practices, policies, and enforcement emphases vary from place to place and even within a community from time to time, arrest data provide a useful indication of involvement in criminal acts by the age, sex, race, and ethnic origin of the perpetrators. The volume of arrests for certain unlawful conduct such as drunkenness, disorderly conduct, vagrancy, and related violations may differ among agencies. However, arrests for robbery, burglary, and other serious crimes are more likely to be the result of uniform and consistent practices throughout all jurisdictions. Procedures used in this Program require that an arrest be counted on each separate occasion a person is taken into custody, notified, or cited. Annual arrest figures do not measure the number of individuals arrested since one person may be arrested several times during the year for the same or different offenses.

During 1983, law enforcement agencies made an estimated 11.7 million arrests nationwide for all criminal infractions except traffic violations. The arrest rate was 5,120 per 100,000 inhabitants of the total estimated United States population. Cities with populations over 250,000 showed an arrest rate of 7,427 per 100,000; suburban areas registered 4,230; and rural counties recorded 3,500 per 100,000 people.

Arrest Trends

Arrests for all offenses except traffic violations dropped 3 percent in 1983 from the 1982 volume. During this time, arrests of persons under 18 years of age decreased 10 percent and arrests of persons 18 years of age and older declined 2 percent. When considering only the eight Crime Index offenses, arrests of persons of all ages were down 5 percent; adult arrests declined 4 percent; and juvenile arrests decreased 8 percent. Arrests for the Index's violent crimes dropped 4 percent, and those for property crimes were down 6 percent.

For the 5-year period, 1979-1983, total arrests rose 10 percent in volume, with the arrests of persons under 18 years of age decreasing 17 percent but those of persons 18 and over increasing 18 percent. Crime Index arrests were up 1 percent overall and 15 percent for adults. Conversely, the number of juveniles arrested for Index crimes dropped 20 percent. Total violent crime arrests rose 3 percent over the 1979 total, while property crime arrests were up 1 percent.

The number of arrests for drug abuse violations in 1983 rose 5 percent over the 1982 total and was 20 percent higher than in 1979. The types of drugs involved in violations resulting in arrests during 1983 are shown by geographic region in the accompanying table.

Arrests for Drug Abuse Violations

[Percent distribution]

	Total[1]	Heroin or cocaine	Marijuana	Synthetic narcotics	Other
Northeastern States	100.0	27.4	59.8	4.2	8.6
Sale/manufacture	27.3	10.9	11.8	1.5	3.2
Possession	72.7	16.6	48.0	2.7	5.4
North Central States	100.0	7.7	69.4	4.3	18.6
Sale/manufacture	24.1	2.5	10.2	1.7	9.7
Possession	75.9	5.2	59.2	2.6	8.9
Southern States	100.0	13.3	69.6	4.6	12.5
Sale/manufacture	23.6	4.7	12.4	1.6	4.9
Possession	76.4	8.7	57.1	3.0	7.6
Western States	100.0	36.6	48.8	.8	13.8
Sale/manufacture	15.8	5.2	7.4	.3	2.9

Total	100.0	23.1	60.9	3.3	12.7
Sale/manufacture	22.1	6.0	10.5	1.2	4.5
Possession	77.9	17.1	50.5	2.1	8.3

[1]Because of rounding, percentages may not add to total.

Age

Age distribution data for all arrestees nationwide showed that 5 percent were under the age of 15, 17 percent were under 18, 32 percent were under 21, and 51 percent were under 25.

Proportionally, arrests of young persons were greater in the Nation's cities and suburban areas than in the country as a whole. The under 25 age group accounted for 53 percent of arrests in the city and suburbs. In the rural counties, the distributions of arrests for the younger age groups were lower than the national experience. Persons under age 25 comprised 43 percent of the total rural arrests.

Considering only the Crime Index offenses (including arson), 12 percent of the arrestees in the Nation were under the age of 15; 30 percent were under the age of 18; 47 percent were under 21; and 63 percent, under 25. A further examination of figures on arrestees in the lower age brackets showed that persons under 25 years of age comprised 52 percent of those arrested for violent crimes and 66 percent of those arrested for property crimes.

Sex

A comparison of 1982 and 1983 figures showed that both male and female arrests decreased during the 2-year period. Male arrests dropped 3 percent in volume, while those of women were down 1 percent. Outnumbering women arrestees by 5 to 1, males accounted for 83 percent of all arrests, 80 percent of those for Index crimes, 89 percent of

those for violent crimes, and 77 percent of those for property crimes.

As shown in former years, larceny-theft was the crime for which females were most often arrested. This single offense accounted for 80 percent of arrests of women for Index crimes and 20 percent of all female arrests.

Arrests of males rose 9 percent from 1979 to 1983, while female arrests were up 15 percent. Although the number of adult arrests increased for both sexes, arrests of females under age 18 fell 14 percent and those of males dropped 18 percent during the 5-year period.

Arrest Rates

Arrest rates are a measure of law enforcement activity in response to crime. The accompanying table presents the Crime Index arrest rates per 100,000 inhabitants in the four geographic regions of the United States.

Arrests, Region, 1983

[Rate per 100,000 inhabitants]

Offense	United States total	Northeastern States	North Central States	Southern States	Western States
Murder	9.0	6.6	8.0	10.4	10.2
Forcible rape	15.0	14.3	14.6	15.4	15.7
Robbery	66.8	101.7	49.5	54.7	70.4
Aggravated assault	130.3	127.7	77.8	155.1	148.5
Burglary	207.1	177.9	166.2	209.7	275.9

[1]Includes all offenses except traffic and neglect cases.
[2]Because of rounding, the percentages may not add to total.
[3]Includes suburban city and county law enforcement agencies within metropolitan areas. Excludes core cities. Suburban cities and counties are included in other groups.

Law Enforcement Code of Ethics

As a Law Enforcement Officer, *my fundamental duty is to serve mankind; to safeguard lives and property; to protect the innocent against deception, the weak against oppression or intimidation, and the peaceful against violence or disorder; and to respect the Constitutional rights of all men to liberty, equality and justice.*

I will *keep my private life unsullied as an example to all; maintain courageous calm in the face of danger, scorn, or ridicule; develop self-restraint; and be constantly mindful of the welfare of others. Honest in thought and deed in both my personal and official life, I will be exemplary in obeying the laws of the land and the regulations of my department. Whatever I see or hear of a confidential nature or that is confided to me in my official capacity will be kept ever secret unless revelation is necessary in the performance of my duty.*

I will *never act officiously or permit personal feelings, prejudices, animosities or friendships to influence my decisions. With no compromise for crime and with relentless prosecution of criminals, I will enforce the law courteously and appropriately without fear or favor, malice or ill will, never employing unnecessary force or violence and never accepting gratuities.*

I recognize *the badge of my office as a symbol of public faith, and I accept it as a public trust to be held so long as I am true to the ethics of the police service. I will constantly strive to achieve these objectives and ideals, dedicating myself before God to my chosen profession . . . law enforcement.*

SECTION V
LAW ENFORCEMENT PERSONNEL

Law Enforcement Employees

As of October 31, 1983, there was an average of 2 full-time law enforcement officers for every 1,000 inhabitants in the United States. Representing a population of 222 million, 11,820 city, county, and state police agencies reported employing a total of 449,370 officers. Including full-time civilians, the total law enforcement employee force was 585,950 for a rate of 2.6 per 1,000 inhabitants.

Because of varying demographic and other jurisdictional characteristics, the requirements for law enforcement service differ greatly from one locale to another. For example, the needs of a community having a highly mobile or seasonal population may be very different from those of a city whose population is relatively stable. Similarly, a small community situated between two large cities may require a greater number of law enforcement personnel than a community of the same size which has no urban centers nearby.

The functions of law enforcement are also significantly diverse throughout the Nation. In certain areas, sheriffs' responsibilities are limited almost exclusively to civil functions and/or the administration of the county jail facilities. Likewise, the responsibilities of state police and highway patrol agencies vary from one jurisdiction to another.

In view of these differing service requirements and responsibilities, care should be used when attempting any comparison of law enforcement employee rates. The rates presented in the following tables represent national averages; they should be viewed as guides or indicators, not as recommended or desirable police strengths. Adequate manpower for a specific locale can be determined only after careful study and analysis of the various conditions affecting service requirements in that jurisdiction.

City law enforcement employee averages in 1983 ranged from 2 per 1,000 inhabitants in those with populations from 25,000 to 49,999 to 3.3 for those with populations of 250,000 or more. The average rate for counties was 2.8, while in the suburban areas, the average was 2.5 full-time law enforcement employees per 1,000 population.

Geographically, the highest law enforcement employee rate was evident in the South Atlantic Division, with 3. The fewest number of employees per 1,000 population was reported by the West North Central Division, with an average rate of 2.2.

Sworn Personnel

Rates based solely on sworn law enforcement personnel (excluding civilians) showed the national average for all cities was 2 officers per 1,000 inhabitants. By population grouping, the lowest average rate (1.6) was for cities with populations of 25,000 to 49,999; cities 250,000 or more in population recorded the highest rate, 2.6. Suburban law enforcement agencies averaged 1.9 officers per 1,000 population.

Nationally, as well as in suburban areas and rural counties, 94 percent of all sworn employees were males. In cities, males comprised 95 percent of all sworn personnel.

Civilian Employees

Civilians represented 20 percent of all law enforcement personnel in cities during 1983. In suburban areas, they accounted for 24 percent; and in the rural counties, they comprised 30 percent. Nationally, civilians represented 23 percent of the total law enforcement strength.

Law Enforcement Officers Killed and Assaulted

Fewer law enforcement officers were feloniously killed in the line of duty during 1983 than in any year of the past decade. Eighty officers were slain in 1983, as compared to 92 the previous year.

According to nearly 10,000 city, county, and state law enforcement agencies nationwide, assaults on officers numbered 62,324 in 1983. During the year, assaults averaged 16.5 per 100 officers, while 5.5 of every 100 officers suffered personal injuries as a result of the assaults.

Assaults on Federal officers totaled 580 for the year. Seven officers were killed in the line of duty and 78 suffered assault-related injuries.

Extensive data on line-of-duty killings and assaults can be found in the Uniform Crime Reporting publication, *Law Enforcement Officers Killed and Assaulted.*

SECTION VI
APPENDIX I
TABLE METHODOLOGY

Designed to assist the reader, this appendix explains the construction of many tabular presentations in the book. The following key refers to the columnar headings used throughout the appendix.

Key: A) Column 1 shows the table numbers. Included are Tables 1 through 67, *Crime in the United States-1983.*

B) Column 2 indicates the level of submission necessary for an agency's statistics to be included in a table. There are three levels of participation:

1. Agencies having reported data for all 12 months of the year.
2. Agencies having reported data for at least one month but less than 12 months of the year.
3. Nonreporting agencies.

The tabulations presented in the publication employ statistics from one or more of the above-listed participation levels. For example, Table 1 includes all three agency reporting levels, but Table 13 presents only data for agencies having reported the entire year.

C) Column 3 explains how each table was constructed. Data adjustments, if any, are discussed along with various definitions of data aggregation.

D) Column 4 contains general comments regarding the potential use and misuse of the statistics presented.

(1)	(2) Data Base	(3) Table Construction	(4) General Comments
1	All law enforcement agencies in the UCR Program (including those submitting less than 12 months for 1983).	Statistics are aggregated from individual state statistics as shown in Table 4. Crime statistics include estimated offense totals for agencies submitting less than 12 months of offense reports. Population statistics represent July 1, 1983, Bureau of the Census provisional estimates. The tabular breakdowns are in accordance with UCR crime definitions (App. II) and population classifications (App. III).	Represents an estimation of national reported crime activity in 1983.
2	All law enforcement agencies in the UCR Program (including those submitting less than 12 months).	The 1983 statistics are consistent with Table 1, *Crime in the U. S.* Pre-1983 crime statistics may have been updated, and hence, may not be consistent with prior publications. Crime statistics include estimated offense totals for agencies submitting less than 12 months of offense reports for each year. Population statistics represent July 1 provisional estimations for each year except April 1, 1980. The offense breakdowns are according to UCR crime definitions (App. II). Crime volume statistics are rounded to the nearest 10 for violent crime and the nearest 100 for property crime.	Represents an estimation of national reported crime activity from 1974 to 1983.
3	All law enforcement agencies in the UCR Program (including those submitting less than 12 months).	The 1983 statistics are aggregated from individual state statistics as shown in Table 4. Crime statistics include estimated offense totals for agencies submitting less than 12 months of offense reports for 1982 and 1983. Population statistics represent July 1 provisional estimates for 1982 and 1983. The offense breakdowns are according to UCR crime definitions (App. II).	Represents an estimation of reported crime activity for Index offenses at the: 1. national level 2. regional level 3. division level 4. state level Any comparison of UCR statistics should take into consideration demographic differences.
4	All law enforcement agencies in the UCR Program (including those submitting less than 12 months for 1983).	Crime statistics include estimated offense totals for agencies submitting less than 12 months of offense reports. Population statistics represent July 1, 1983, Bureau of the Census provisional estimates. Statistics under the heading "Area Actually Reporting" represent reported offense totals for agencies submitting 12 months of offense reports and estimated totals for agencies submitting less than 12 but more than 2 months of offense reports. The statistics under the heading "Estimated Totals" represent the above plus estimated offense totals for agencies having less than 3 months of offense reports. The tabular breakdowns are according to UCR definitions (App. II).	Represents an estimation of reported crime activity for Index offenses at the state level. Any comparison of UCR statistics should take into consideration demographic differences.
5	All law enforcement agencies submitting complete reports for 12 months in 1983.	"Cities and Towns" are defined to be agencies in Population Groups I through V (App. III). The populations are July 1, 1983, estimates for each agency.	Represents reported crime activity of individual agencies in cities and towns 10,000 and over in population. Any comparison of UCR statistics should take into consideration demographic differences.
6	All university/college law enforcement agencies submitting complete reports for 12 months in 1983.	The 1982 student enrollment figures, which are provided by the U.S. Department of Education, are the most recent available. The totals include adjustments to convert the number of part-time students into full-time equivalents.	Represents reported crime for individual university/college law enforcement agencies listed alphabetically by state. Totals are supplied for violent and property crimes. Any comparison of UCR statistics should take into consideration demographic differences.
7	All law enforcement agencies submitting complete reports for 12 months in 1983.	"Suburban Counties" are defined as the areas covered by noncity agencies within an MSA (App. III).	Represents crime reported to individual law enforcement agencies in suburban counties. Any comparison of UCR statistics should take into consideration demographic differences.
8	All law enforcement agencies submitting complete reports for 12 months in 1983.	"Rural Counties" are those outside MSAs and not covered by city police agencies (App. III). Population classifications of rural counties are based on July 1, 1983, estimates for individual agencies.	Represents crime reported to individual rural county law enforcement agencies covering populations 25,000 and over. Any comparison of UCR statistics should take into consideration demographic differences.
9-12	All law enforcement agencies submitting complete reports for at least 6 common months in 1982 and 1983.	The 1983 crime trend statistics are 2-year comparisons based on 1983 reported crime activity. Only common reported months for individual agencies are included in 1983 trend calculations. Populations represent July 1, 1983, estimates for individual agencies. The tabular breakdowns are according to UCR crime definitions (App. II) and population classifications (App. III). Note that "Suburban and Nonsuburban Cities" are all municipal agencies other than core cities in MSAs.	Slight decrease in national coverage for Table 12 due to editing procedure and lower submission rate.

(1)	(2) Data Base	(3) Table Construction	(4) General Comments
13-16	All law enforcement agencies submitting complete reports for 12 months in 1983.	The 1983 crime rates are the ratios of the aggregated 1983 crime volumes and the aggregated 1983 populations of the contributing agencies. Population statistics represent July 1, 1983, estimates for individual agencies. The tabular breakdowns are according to UCR crime definitions (App. II) and population classifications (App. III). Note that "Suburban and Nonsuburban Cities" are all municipal agencies other than core cities in MSAs.	Slight decrease in national coverage for Table 16 due to editing procedure and lower submission rate.
17, 18	All law enforcement agencies submitting complete reports for at least 6 months in 1983.	Offense total and value lost total are computed for all Index offense categories other than aggravated assault. Percent distribution is derived based on offense total with each Index offense. Trend statistics are derived based on agencies with at least 6 common months complete for 1982 and 1983.	Aggravated assault is excluded from Table 17. For UCR Program purposes, the taking of money or property in connection with an assault is reported as a robbery.
19-22	All law enforcement agencies submitting complete reports for at least 6 months in 1983.	The 1983 clearance rates are based on offense and clearance volume totals of the contributing agencies for 1983. Population statistics represent July 1 estimates for individual agencies. The tabular breakdowns are according to UCR crime definitions (App. II) and population classifications (App. III).	
23	All law enforcement agencies in the UCR Program (including those submitting less than 12 months for 1983).	The arrest totals presented are national estimates based on the arrest statistics of all law enforcement agencies in the UCR Program (including those submitting less than 12 months). The "Total Estimated Arrests" statistic is the sum of estimated arrest volumes for each of the 29 offenses. Each individual arrest total is the sum of the estimated volumes within each of the eight population groups (App. III). Each group's estimate is the reported volume (as shown in Table 24) divided by the percent of total group population reporting (according to July 1, 1983, estimates).	
24	All law enforcement agencies submitting complete reports for 12 months in 1983.	The 1983 arrest rates are the ratios, per 100,000 inhabitants, of the aggregated 1983 reported arrest statistics and population. The population statistics represent the July 1, 1983, estimates for individual agencies. The tabular breakdowns are according to UCR crime definitions (App. II) and population classifications (App. III).	
25, 26	All law enforcement agencies submitting reports for 12 months in 1974 and 1983.	The arrest trends are the percentage differences between 1974 and 1983 arrest volumes aggregated from all common agencies. Population statistics represent July 1, 1983, estimates.	
27, 28	All law enforcement agencies submitting complete reports for 12 months in 1979 and 1983.	The arrest trends are the percentage differences between 1979 and 1983 arrest volumes aggregated from common agencies. Population statistics represent July 1, 1983, estimates.	
29, 30	All law enforcement agencies submitting complete reports for 12 months in 1982 and 1983.	The arrest trends are 2-year comparisons between 1982 and 1983 arrest volumes aggregated from common agencies. Population statistics represent July 1, 1983, estimates.	
31-37	All law enforcement agencies submitting complete reports for 12 months in 1983.		Slight decrease in coverage for Tables 36 and 37 due to editing procedure and lower submission of race and ethnic origin data.
38, 39	All city law enforcement agencies submitting complete reports for 12 months in 1982 and 1983.	The 1983 city arrest trends represent the percentage differences between 1982 and 1983 arrest volumes aggregated from common city agencies. "City Agencies" are defined to be all agencies within Population Groups I-VI (App. III).	
40-44	All city law enforcement agencies submitting complete reports for 12 months in 1983.	"City Agencies" are defined as agencies within Population Groups I-VI (App. III).	Slight decrease in coverage for Tables 43 and 44 due to editing procedure and lower submission of race and ethnic origin data.
45, 46	All suburban county law enforcement agencies submitting complete reports for 12 months in 1982 and 1983.	1983 suburban county trends represent percentage differences between 1982 and 1983 volumes aggregated from contributing agencies. "Suburban Counties" are defined as the areas covered by noncity agencies within an MSA (App. III).	
47-51	All suburban county law enforcement agencies submitting complete reports for 12 months in 1983.	"Suburban Counties" are defined as the areas covered by noncity agencies within an MSA (App. III).	Slight decrease in coverage for Tables 50 and 51 due to editing procedure and lower submission rate.
52, 53	All rural county law enforcement agencies submitting complete reports for 12 months in 1982 and 1983.	1983 rural county trends represent percentage differences between 1982 and 1983 volumes aggregated from contributing agencies. "Rural Counties" are defined as noncity agencies outside MSAs (App. III).	

(1)	(2) Data Base	(3) Table Construction	(4) General Comments
54-58	All rural county law enforcement agencies submitting complete reports for 12 months in 1983.	"Rural Counties" are defined as noncity agencies outside MSAs (App. III).	Slight decrease in coverage for Tables 57 and 58 due to editing procedure and lower submission of race and ethnic origin data.
59, 60	All suburban area law enforcement agencies submitting complete reports for 12 months in 1982 and 1983.	1983 suburban area arrest trends represent percentage differences between 1982 and 1983 arrest volumes aggregated from contributing agencies. "Suburban Area" is defined as all counties and cities with fewer than 50,000 inhabitants within MSAs (App. III).	
61-65	All suburban area law enforcement agencies submitting complete reports for 12 months in 1983.	"Suburban Area" is defined as counties and cities with fewer than 50,000 inhabitants within MSAs (App. III).	Slight decrease in coverage for Tables 64 and 65 due to editing procedure and lower submission of race and ethnic origin data.
66	All law enforcement agencies submitting complete reports for 12 months in 1983.	Arrest totals are aggregated for individual agencies within each state. Population figures represent July 1 provisional estimates for 1983. The tabular breakdowns are according to UCR crime definitions (App. II).	Any comparison of statistics should take into consideration variances in arrest practices, particularly for Part II crimes.
67	All law enforcement agencies submitting complete reports for 12 months in 1983.	Population statistics represent July 1, 1983, estimates for individual agencies. See Appendix III for definitions of the population classifications presented.	Data furnished are based upon individual state age definitions for juveniles.

APPENDIX II
OFFENSES IN UNIFORM CRIME REPORTING

Offenses in Uniform Crime Reporting are divided into two groupings, Part I and Part II. Information on the number of Part I offenses known to law enforcement, the number cleared by arrest or exceptional means, and the number of persons arrested is reported monthly. Only arrest data are reported for Part II offenses.

The Part I offenses are as follows:

Criminal Homicide.– a. Murder and nonnegligent manslaughter: the willful (nonnegligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, accidental deaths, and justifiable homicides are excluded. Justifiable homicides are limited to: (1) the killing of a felon by a law enforcement officer in the line of duty; and (2) the killing of a felon by a private citizen. b. Manslaughter by negligence: the killing of another person through gross negligence. Traffic fatalities are excluded. While manslaughter by negligence is a Part I crime, it is not included in the Crime Index.

Forcible rape.– The carnal knowledge of a female forcibly and against her will. Included are rapes by force and attempts or assaults to rape. Statutory offenses (no force used– victim under age of consent) are excluded.

Robbery.– The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or putting the victim in fear.

Aggravated assault.– An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Simple assaults are excluded.

Burglary-breaking or entering.– The unlawful entry of a structure to commit a felony or a theft. Attempted forcible entry is included.

Larceny-theft (except motor vehicle theft).– The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Examples are thefts of bicycles or automobile accessories, shoplifting, pocket-picking, or the stealing of any property or article which is not taken by force and violence or by fraud. Attempted larcenies are included. Embezzlement, "con" games, forgery, worthless checks, etc., are excluded.

Motor vehicle theft.– The theft or attempted theft of a motor vehicle. A motor vehicle is self-propelled and runs on the surface and not on rails. Specifically excluded from this category are motorboats, construction equipment, airplanes, and farming equipment.

Arson.– Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

The Part II offenses are:

Other assaults (simple).– Assaults and attempted assaults where no weapon was used and which did not result in serious or aggravated injury to the victim.

Forgery and counterfeiting.– Making, altering, uttering, or possessing, with intent to defraud, anything false which is made to appear true. Attempts are included.

Fraud.– Fraudulent conversion and obtaining money or property by false pretenses. Included are larceny by bailee and bad checks, except forgeries and counterfeiting.

Embezzlement.– Misappropriation or misapplication of money or property entrusted to one's care, custody, or control.

Stolen property; buying, receiving, possessing.– Buying, receiving, and possessing stolen property, including attempts.

Vandalism.– Willful or malicious destruction, injury, disfigurement, or defacement of any public or private property, real or personal, without consent of the owner or persons having custody or control.

Weapons; carrying, possessing, etc.– All violations of regulations or statutes controlling the carrying, using, possessing, furnishing, and manufacturing of deadly weapons or silencers. Included are attempts.

Prostitution and commercialized vice.– Sex offenses of a commercialized nature, such as prostitution, keeping a bawdy house, procuring, or transporting women for immoral purposes. Attempts are included.

Sex offenses (except forcible rape, prostitution, and commercialized vice). – Statutory rape and offenses against chastity, common decency, morals, and the like. Attempts are included.

Drug abuse violations.– State and local offenses relating to narcotic drugs, such as unlawful possession, sale, use, growing, and manufacturing of narcotic drugs.

Gambling.– Promoting, permitting, or engaging in illegal gambling.

Offenses against the family and children.– Nonsupport, neglect, desertion, or abuse of family and children.

Driving under the influence.– Driving or operating any vehicle or common carrier while drunk or under the influence of liquor or narcotics.

Liquor laws.– State or local liquor law violations, except "drunkenness" and "driving under the influence". Federal violations are excluded.

Drunkenness.– Offenses relating to drunkenness or intoxication. Excluded is "driving under the influence".

Disorderly conduct.– Breach of the peace.

Vagrancy.– Vagabondage, begging, loitering, etc.

All other offenses.– All violations of state or local laws, except those listed above and traffic offenses.

Suspicion.– No specific offense; suspect released without formal charges being placed.

Curfew and loitering laws.– Offenses relating to violations of local curfew or loitering ordinances where such laws exist.

Runaways.– Limited to juveniles taken into protective custody under provisions of local statutes.

APPENDIX III
UNIFORM CRIME REPORTING AREA DEFINITIONS

Community Types

Uniform Crime Reporting data are often presented using three community-type aggregations. These are Metropolitan Statistical Areas (MSAs), other cities, and rural counties.

Formerly known as Standard Metropolitan Statistical Areas, MSAs are statistical constructs used to define metropolitan areas in a uniform manner. Each is an integrated economic and social unit with a recognized large population nucleus. The MSA concept was developed to facilitate the analysis and dissemination of statistical information on metropolitan areas. The primary objective in establishing standard definitions of these areas was to make it possible for Federal agencies to utilize the same boundaries when publishing statistical data. Detailed criteria followed in establishing and defining MSAs can be found in the U. S. Department of Commerce publication, **Metropolitan Statistical Areas,** 1983 edition.

An MSA includes a central city of at least 50,000 population or an urbanized area of at least 50,000 with a total metropolitan population of at least 100,000. In addition to the county containing the central city, an MSA may also include contiguous counties having strong economic and social relationships to the central city and county. An MSA may cross state lines.

New England MSAs are composed of cities and towns instead of counties. In this publication's tabular presentations, New England cities and towns are assigned to the proper MSA. However, some counties have both suburban and rural portions. Data for state police and sheriffs in those jurisdictions are included in statistics for the rural area.

MSAs made up approximately 76 percent of the total United States population in 1983. Some presentations in this book refer to "suburban area." A suburban area includes cities with less than 50,000 inhabitants in addition to counties (unincorporated areas) within the MSA. The central cities are, of course, excluded.

"Other cities," most of which are incorporated, are those outside MSAs. They comprised 10 percent of the 1983 population of the United States.

Rural counties, which are those outside MSAs, comprised 14 percent of the 1983 national population. Their population figures exclude areas covered by city police agencies.

The following diagram illustrates the aforementioned discussion of the community types.

	MSA	NON-MSA
CITIES	CORE CITIES OVER 50,000	OTHER CITIES
	SUBURBAN CITIES	
COUNTIES (unincorporated area)	SUBURBAN COUNTIES	RURAL COUNTIES

Population Groups

The population group classifications used by the UCR Program are as follows:

Population Group	*Political Label*	*Population Range*
I	City	250,000 and over
II	City	100,000 to 249,999
III	City	50,000 to 99,999
IV	City	25,000 to 49,999
V	City	10,000 to 24,999
VI	City	Less than 10,000
VIII (Rural County)	County	N/A
IX (Suburban County)	County	N/A

The major source of UCR data is the individual law enforcement agency. The number of agencies included in each population group will vary slightly from year to year due to population growth, geopolitical consolidation, municipal incorporation, etc. The following table shows the number of UCR contributing agencies within each population group for 1983.

Population Group	*Number of Agencies*	*Population Covered*
I	59	43,147,000
II	120	17,607,000
III	302	20,649,000
IV	645	22,182,000
V	1,657	25,943,000
VI	7,723	25,110,000
VIII (Rural County)	3,627	33,724,000
IX (Suburban County)	1,629	45,619,000
Total	15,762	233,980,000[1]

[1]Due to rounding, the population covered does not add to total.

Regions and Divisions

Geographically, the United States is comprised of four regions: the Northeastern States, the North Central States, the Southern States, and the Western States. These regions are further divided into nine divisions. The following table delineates the regional, divisional, and state configuration of the country.

NORTHEASTERN STATES

New England	Middle Atlantic
Connecticut	New Jersey
Maine	New York
Massachusetts	Pennsylvania
New Hampshire	
Rhode Island	
Vermont	

NORTH CENTRAL STATES

East North Central	West North Central
Illinois	Iowa
Indiana	Kansas
Michigan	Minnesota
Ohio	Missouri
Wisconsin	Nebraska
	North Dakota
	South Dakota

SOUTHERN STATES

South Atlantic*	East South Central
Delaware	Alabama
Florida	Kentucky
Georgia	Mississippi
Maryland	Tennessee
North Carolina	West South Central
South Carolina	Arkansas
Virginia	Louisiana
West Virginia	Oklahoma
	Texas

*Includes District of Columbia.

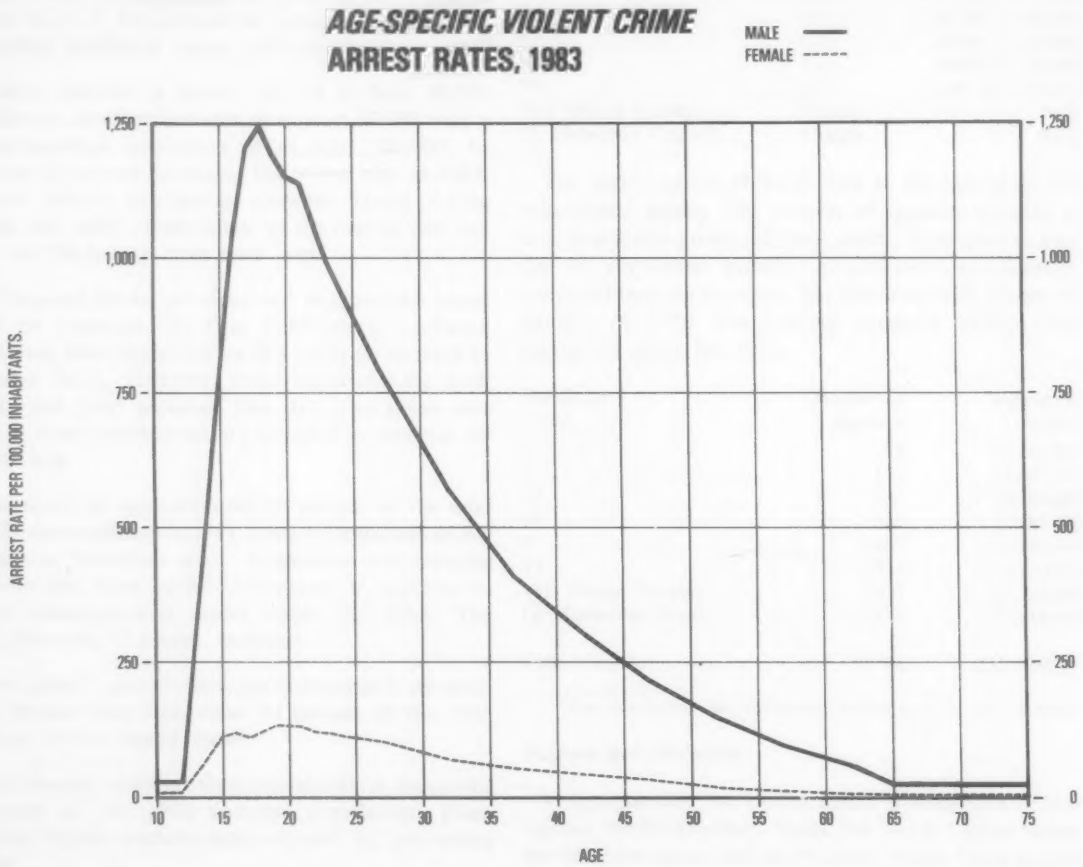
WESTERN STATES

Mountain	Pacific
Arizona	Alaska
Colorado	California
Idaho	Hawaii
Montana	Oregon
Nevada	Washington
New Mexico	
Utah	
Wyoming	

APPENDIX IV
AGE-SPECIFIC ARREST RATES BY SEX

This appendix presents age-specific arrest rates by sex for the Crime Index offenses of murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, and arson. Rates for violent crime, property crime, and Crime Index offense totals are also included. An age-specific arrest rate refers to the number of arrests per 100,000 inhabitants belonging to a prescribed age group. Using UCR data based on reports from agencies supplying figures for complete 12-month periods, age-specific arrest rates for males and females were computed for the years 1974, 1979, and 1983. These time periods were selected in order to provide both 5- and 10-year comparisons. A review of the appendix tables reveals that individual offenses have different involvement patterns in terms of age and sex. It will be noted that, generally, property crime arrests peak at earlier ages than do those for violent crimes. The tables also show that peak ages of arrest for certain offenses may shift over time.

The following graph illustrates the distribution of 1983 age-specific arrest rates for violent crime offenses.



Total Crime Index, Age-Specific Arrest Rates by Sex, United States

Age Group	1974			1979			1983		
	Total	Male	Female	Total	Male	Female	Total	Male	Female
12 and under	345.46	550.97	131.26	266.23	422.13	103.23	252.64	399.62	98.72
13-14	3,410.95	5,274.13	1,474.55	3,009.24	4,667.14	1,283.90	2,607.84	4,008.31	1,143.80
15	4,970.63	7,992.47	1,834.95	4,472.32	7,135.42	1,686.09	3,899.95	6,131.07	1,572.82
16	5,243.67	8,605.13	1,758.36	4,955.61	8,087.57	1,707.91	4,267.92	6,894.04	1,537.64
17	4,768.63	7,876.14	1,548.76	4,826.30	8,016.24	1,521.63	4,336.57	7,140.84	1,412.42
18	4,248.79	6,974.22	1,473.53	4,211.37	6,993.09	1,347.62	3,922.01	6,482.02	1,268.50
19	3,296.00	5,399.37	1,181.34	3,345.22	5,544.94	1,106.12	3,392.74	5,567.20	1,150.48
20	2,745.45	4,445.64	1,037.69	2,774.33	4,541.46	990.12	2,929.10	4,737.94	1,070.61
21	2,455.17	3,967.85	942.49	2,462.41	4,022.21	889.45	2,617.44	4,237.19	972.28
22	2,268.12	3,705.14	844.27	2,217.85	3,595.65	840.06	2,330.77	3,750.05	897.86
23	2,090.55	3,432.47	766.70	2,023.05	3,259.84	795.28	2,136.29	3,417.61	842.54
24	1,914.61	3,134.12	718.91	1,798.39	2,878.05	725.04	1,976.05	3,133.97	809.63
25-29	1,313.20	2,138.98	500.97	1,392.25	2,219.42	575.16	1,644.30	2,600.19	690.49
30-34	848.47	1,367.33	345.64	903.41	1,426.79	392.05	1,165.07	1,848.27	492.90
35-39	638.01	1,017.60	276.11	661.15	1,029.45	305.85	786.36	1,236.01	349.32
40-44	462.02	730.63	204.35	502.90	767.66	249.13	591.30	909.70	285.29
